**Assessment Requirements for TLIL4070
Work effectively in the transport and
logistics industry**

Release: 2

Assessment Requirements for TLIL4070 Work effectively in the transport and logistics industry

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Updated Application and Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- completing relevant documentation
- developing competence in response to changes in activities, and legislative and organisational requirements
- identifying and anticipating operational problems, hazards and risks, and taking appropriate action
- identifying and correctly using relevant equipment
- interpreting and applying relevant regulations and instructions
- modifying activities dependent on workplace contingencies, situations and environments
- monitoring work activities in terms of planned schedule
- reading, interpreting and following relevant work requirements, policies and procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- current and emerging issues impacting on the transport and logistics industry, including infrastructure needs, technological changes and future challenges
- local and national trends in the transport and logistics industry, including emerging industry practices and needs
- organisational policies and procedures, including those relating to own area of responsibility and performance standards
- relevant sections of national and state/territory legislation, regulatory requirements and codes of practice/or guidelines as they relate to the level and type of transport and logistics industry operations within own area of responsibility
- relevant work health and safety (WHS)/occupational health and safety (OHS) and

environmental procedures and guidelines.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals.
