TLIL4077 Develop out-of-course rail traffic plans and schedules

Release: 2

TLIL4077 Develop out-of-course rail traffic plans and schedules

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Performance Evidence
- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to develop out-of-course rail traffic plans and schedules in accordance with workplace procedures and the requirements of relevant safeworking regulations and codes of practice.

It includes analysing service and/or business requirements, establishing rail traffic requirements, and communicating altered or additional rail traffic movement requirements.

Work is performed under some supervision, generally in a team environment.

This unit is intended for persons who are required to develop out-of-course rail traffic plans and schedules as part of work activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

L – Resource Management

Unit Sector

Rail sector.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Analyse service and business requirements	1.1	Customer is consulted and requirements outside normal operations are identified to establish additional or altered rail service requirements
		1.2	Additional or altered rail service provision is recorded in accordance with organisational procedures
		1.3	Hazards are identified, risks assessed and control measures implemented
		1.4	Additional resource requirements are identified
2	Establish rail traffic requirements	2.1	Rail traffic requirement is established to ensure efficient management of the network
		2.2	Rail traffic specifications are confirmed to ensure that they meet network operating requirements and restrictions
		2.3	Train section run times for rail traffic are established and plotted on appropriate train graphs and/or diagrams
3	Communicate altered or additional rail traffic movement	3.1	Documentation relating to additional or altered rail traffic movement is issued in accordance with organisational procedures
		3.2	Alterations and cancellations affecting rail traffic running times are communicated to appropriate customer, network manager and/or rail operator as required

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to TLIL4077A Develop out-of-course rail traffic plans and schedules.
