Assessment Requirements for TLIL4084 Control daily tram/light rail operations

Release: 2

Assessment Requirements for TLIL4084 Control daily tram/light rail operations

Modification History

Release 2. This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Assessment Conditions.

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant safeworking systems and workplace procedures
- communicating effectively with others when monitoring and controlling tram/light rail operations
- controlling daily tram/light rail operations
- dealing with disruptions or delays to tram/light rail operations
- following documentation procedures in accordance with organisational standards
- identifying job hazards and required action to minimise, control or eliminate identified hazards
- identifying relevant organisational documentation
- monitoring tram/light rail operations
- producing clear and concise documentation
- reading and interpreting relevant instructions, procedures and information
- working collaboratively with others when monitoring and controlling tram/light rail operations
- working systematically with required attention to detail.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- communication protocols for relevant personnel and authorities
- location of tram/light rail and heavy rail interfaces
- organisational procedures for monitoring and controlling tram/light rail operations
- problems and delays that may occur with daily tram/light rail operations

- regulatory requirements
- safeworking systems and relevant workplace procedures for controlling daily tram/light rail operations
- system geography and limitations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate tram/light rail corridor workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals.
