Assessment Requirements for TLIL5055

Manage a supply chain

Release: 1

Assessment Requirements for TLIL5055 Manage a supply chain

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- developing and implementing policies
- focusing on the customer
- implementing, managing and reviewing management strategies
- implementing contingency plans
- negotiating and liaising with suppliers and relevant stakeholders, verbally and in writing
- using appropriate technology, including software
- working collaboratively with others
- working with attention to detail and thoroughness.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- business terms and conditions for purchasing, tendering and contracting
- ethical behaviour
- legislation related to importing commodities
- legislation, codes of practice, and national and international standards such as the Trade Practices Act, Sale of Goods Act and contract law
- organisational policies and procedures related to supply chain management, purchasing, contracting and tendering
- procedures for operating electronic communications equipment
- product knowledge related to goods and services required by the organisation
- requirements for completing relevant documentation
- ways to build trust and collaboration as opposed to competition.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
