Assessment Requirements for TLIL5057 Maintain, monitor and improve transport operations systems

Release: 1

Assessment Requirements for TLIL5057 Maintain, monitor and improve transport operations systems

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting to differences in equipment and related standard operating and servicing procedures
- applying relevant legislation and workplace procedures
- communicating and working effectively with others when maintaining, monitoring and improving transport operations systems
- completing documentation related to work activities
- identifying, managing and reviewing operation systems
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required protocol
- reading and interpreting policies, documents, legislation, instructions, procedures, information and signs relevant to work activities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- emergency procedures
- principles, purpose and location of controls, monitoring devices and systems
- procedures for adjusting controls to optimise the operation of the equipment
- relevant sections of national and state/territory regulatory requirements and codes of practice
- requirements for completing relevant documentation
- steps involved in planning the activities.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
