TLIL5057 Maintain, monitor and improve transport operations systems

Release: 1

TLIL5057 Maintain, monitor and improve transport operations systems

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to maintain, monitor and improve an enterprise's transport operations systems in various contexts within the transport and logistics industry.

It includes identifying systems involved with enterprise transport operations, overseeing conditions required for a safe and effective operations system, and reviewing the overall efficiency of those transport operation systems.

The unit generally applies to those who lead individuals or teams.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

L – Resource Management

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1 Identify operations systems	1.1 Systems involved with enterprise transport operations are identified
	1.2 Relevant safety and efficiency issues regarding operations systems are identified

2	**Oversee conditions required for safe and effective operations systems**	2.1	Procedures for improving enterprise operations systems are implemented
		2.2	Changes caused by improvements in operations systems are communicated to relevant personnel
		2.3	Supervision is allocated according to the skill level and job role of the team member
		2.4	Appropriate management systems are used to oversee operations systems
3	**Review overall efficiency of transport operations systems**	3.1	Procedures for improving enterprise operations systems are reviewed and appropriate action is taken as required
		3.2	Team members are provided with regular feedback on their work output in accordance with organisational requirements

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIL5057A Maintain, monitor and improve transport operations systems.
