Assessment Requirements for TLIL5073 Manage train crewing and rostering

Release: 1

Assessment Requirements for TLIL5073 Manage train crewing and rostering

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant safeworking and workplace procedures
- communicating effectively with others when managing and developing train crew rosters
- establishing a crew resourcing framework
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- managing the development of train crew rosters
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring train crew rosters
- monitoring work activities in terms of planned schedule
- preparing to manage train crewing and rostering
- rectifying identified problems promptly, in accordance with organisational policy and procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- documentation and reporting requirements for developing train crew rosters
- problems that may occur when developing train crew rosters and appropriate action that can be taken to resolve these problems
- rail safety worker competency requirements
- regulatory and organisational requirements, and safeworking systems relevant to developing train crew rosters
- relevant information and documents required to manage train crewing and rostering
- relevant state/territory legislation and regulations in relation to managing train crewing

and rostering

- relevant support activities in relation to managing train crewing and rostering
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental protection procedures and guidelines
- train crew fitness for work
- workplace procedures and policies for developing train crew rosters.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in rail workplace operational situations or, where this is not available, in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, rail industry standards, codes of practice and operation manuals.
