**Assessment Requirements for TLIO2003
Undertake loading and unloading in a
designated secured environment**

Release: 1

Assessment Requirements for TLIO2003 Undertake loading and unloading in a designated secured environment

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting to differences in equipment in accordance with workplace procedures
- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- communicating effectively with others
- identifying and correctly using equipment, processes and workplace procedures
- interpreting and following operational instructions and prioritising work
- modifying activities depending on operational contingencies, risk situations and environments
- planning own work, predicting consequences and identifying improvements
- reading and interpreting relevant instructions, procedures, information and labels
- reporting and/or rectifying identified problems or incidents promptly, in accordance with regulatory requirements and workplace procedures
- using correct manual handling techniques safely
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- contingency planning relating to managing and controlling security risks
- housekeeping standards and procedures
- operational procedures for identification of security risks
- relevant state/territory permit and licence regulations and requirements
- requirements for approved work procedures and relevant equipment
- risks and hazards when transferring cash-in-transit and related precautions to control the risk
- typical problems that can occur when loading and unloading cash-in-transit in a designated secured environment and appropriate action that can be taken to prevent or solve these problems
- work health and safety (WHS)/occupational health and safety (OHS) procedures and guidelines for lifting and moving loads.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
