Assessment Requirements for TLIP4005 Manage workplace information

Release: 1

Assessment Requirements for TLIP4005 Manage workplace information

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adapting to differences in equipment in accordance with standard operating procedures
- applying relevant legislation and workplace procedures
- communicating and working effectively with others when managing workplace information
- identifying and collecting information for use in the workplace
- modifying activities depending on operational contingencies, risk situations and environments
- monitoring and prioritising work activities in terms of planned schedule
- operating electronic communications and information systems equipment to required protocol
- preparing and completing relevant documentation
- reading, interpreting and following relevant instructions and procedures
- reporting and/or rectifying identified problems that may arise, in accordance with regulatory requirements and workplace procedures
- selecting and appropriately applying technology, information systems and procedures to workplace tasks
- selecting and efficiently using information management systems and technologies
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- operational recording, reporting and statistical analysis systems and resources
- relevant regulatory and code requirements
- resource availability including the processing capacity of equipment and software systems for statistical analysis of data
- typical problems that can occur when managing workplace information and related appropriate action that can be taken
- workplace business policies and plans as they relate to financial reporting and information system management and improvement
- workplace protocols and procedures for managing workplace information.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
