Assessment Requirements for TLIP4013 Implement and monitor logistics planning and processes

Assessment Requirements for TLIP4013 Implement and monitor logistics planning and processes

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- completing relevant documentation
- developing and documenting contingency plans as part of the planning process
- identifying and solving problems
- leading others
- modifying activities depending on operational contingencies, risk situations and environments
- planning and organising logistics operations
- reading, interpreting and following local and international transport schedules, regulatory requirements, customer instructions, and workplace procedures and manuals
- selecting and applying appropriate technology, information and communications systems and procedures
- working collaboratively with others.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- Australian and international regulatory, permit and licence requirements relevant to logistics
- broad principles of supply chain management
- business policies and plans including procedures for outsourcing components of operations and engaging additional resources
- coaching and mentoring approaches to support team members to share knowledge and skills
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental procedures and regulations

- relevant sections of national and state/territory regulatory requirements and codes of practice as they relate to the level and type of logistics operations undertaken by the enterprise
- workplace policies including issue resolution and grievance procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
