TLIP5006 Establish international distribution networks

Release: 1

TLIP5006 Establish international distribution networks

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to establish international distribution networks, in accordance with the relevant Australian and international regulations, standards, codes of practice and workplace procedures.

It includes sourcing potential networks, establishing potential service provider profiles and contracting suitable service providers.

Work is under general guidance on progress and outcomes. It requires discretion and judgement for self and others in planning and using resources, services and processes to achieve required outcomes.

The unit generally applies to those with responsibility for resource coordination and allocation, and who lead individuals or teams.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

P – Administration and Finance

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Source potential networks

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Current and required future enterprise distribution networks are identified

1.2 Potential agents, capable of servicing current or potential

operations, are identified

- 1.3 Initial contact is undertaken with potential service providers
- 1.4 Information is sourced from potential service agents regarding their capacity, capability and viability to meet identified operations

2 Establish potential service provider profiles

- 2.1 Distributor contact details, scope of operation/s, costs and service standards are evaluated and documented
- 2.2 Potential service provider technostructures and infrastructures are assessed, including the system/s compatibility with own operations
- 2.3 Potential service provider current credit ratings are established in accordance with enterprise procedures
- 2.4 Security procedures for potential service providers are established in accordance with workplace requirements

3 Contract service providers

- 3.1 Terms of operation and performance standards are negotiated with selected service providers
- 3.2 Contracts are completed with selected service provider/s within scope of authority
- 3.3 Service provider performance is monitored against identified targets within the contract
- 3.4 Contract variances are renegotiated in accordance with statutory requirements and changes within the international and local trading environments
- 3.5 Contracts and ancillary documentation are stored in accordance with enterprise and regulatory requirements

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIP5006A Establish international distribution networks.
