Assessment Requirements for TLIP5011 Develop and evaluate strategies for transport and logistics enterprises

Assessment Requirements for TLIP5011 Develop and evaluate strategies for transport and logistics enterprises

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating effectively with others when developing and evaluating strategies for an enterprise
- completing documentation related to developing and evaluating strategies for an enterprise
- implementing contingency plans
- modifying activities to cater for variations in workplace contexts and environment
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required protocol
- planning and organising business systems and activities
- prioritising work and coordinating self and others in relation to workplace activities
- providing leadership and working collaboratively with others when developing and evaluating strategies for an enterprise
- reading and interpreting business and market data, regulatory requirements and other planning information relevant to developing and evaluating strategies for an enterprise
- reporting and/or rectifying identified problems promptly, in accordance with regulatory requirements and workplace procedures
- selecting and applying appropriate technology, information systems and procedures
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and include knowledge of:

- application of current competencies within functional activity
- application of relevant Australian and international standards and associated certification requirements
- Australian and international regulations, codes of practice and legislative requirements relevant to workplace operations
- current and future market initiatives including new technology, products and processes
- operational competitor and internal business systems, resources, management and workplace operating systems
- hazards and risk that may exist when developing and evaluating strategies for an enterprise, and ways of controlling the risks involved
- market and other external environmental factors including the regulatory environment
- organisational strengths and weaknesses including the competencies of individuals in the team/group
- problems that may occur when developing and evaluating strategies for an enterprise, and action to be taken to report or resolve these problems
- relevant work health and safety (WHS)/occupational health and safety (OHS) and environmental protection procedures and regulations
- relevant workplace documentation procedures
- resource availability including the competencies of individuals in the team/group
- workplace processes for developing and evaluating strategies for an enterprise.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.

Assessment Requirements for TLIP5011 Develop and evaluate strategies for transport and logistics enterprises generated: 12 July 2024
