**Release: 1**

# Assessment Requirements for TLIPC1001 Demonstrate care and apply safe practices at work

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant legislation and workplace procedures
- communicating effectively and using appropriate strategies when listening, questioning and receiving feedback
- recognising limitations and asking for help
- reporting workplace hazards and work health and safety (WHS)/occupational health and safety (OHS) incidents and related action
- solving or reporting problems identified when dealing with safety hazards and applying appropriate hazard control procedures
- using required personal protective equipment and clothing, and other equipment required when following WHS/OHS procedures.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- applicable national, state/territory regulations
- appropriate hygiene and safety standards
- personal protective clothing and equipment relevant to the job and job context
- procedures related to WHS/OHS to be followed in the work area concerned
- workplace equipment, materials, housekeeping equipment and the processes and precautions for their use
- workplace hazards and ways to minimise or remove them.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
