TLIU1013 Prepare for environmentally sustainable work practices

Release: 1

TLIU1013 Prepare for environmentally sustainable work practices

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to prepare for environmentally sustainable work practices in the transport and logistics industry.

It includes identifying industry environmental sustainability information and work practices, including applicable legislation, national standards, industry procedures and work health and safety (WHS)/occupational health and safety (OHS) requirements.

It entails developing an understanding of developed strategies, systems and plans pertaining to environmentally sustainable work practices.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

U – Environment

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
