# **Assessment Requirements for TLIW2041 Clip points and apply rail safety equipment**

**Release: 2**

# Assessment Requirements for TLIW2041 Clip points and apply rail safety equipment

## Modification History

**Release 2.** This is the second release of this unit of competency in the TLI Transport and Logistics Training Package:

- Minor statement changes in Application
- Minor statement changes in Performance Evidence
- Minor statement changes in Knowledge Evidence
- Minor statement changes in Assessment Conditions.

**Release 1.** This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- clipping and unclipping points correctly
- determining location of points to be clipped in accordance with rail network owner procedures
- identifying job hazards and taking required actions to minimise, control or eliminate identified hazards
- measuring distances accurately
- reading, interpreting and following organisational and/or rail network owner procedures for placing and removing points, clips and safety devices.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- applicable state/territory legislative and regulatory rail safety requirements, codes of practice and/or guidelines
- organisational and/or rail network owner policies and procedures for placing and removing points, clips and safety devices
- relevant rail danger zones
- relevant work health and safety (WHS)/occupational health and safety (OHS) requirements and work practices
- safety devices.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate rail workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, rail safety equipment, gloves and personal protective equipment (PPE) currently used in industry
- applicable documentation including rail network owner procedures, regulations, codes of practice and operation manuals.
