TLIX0037 Apply border clearance procedures

Release: 1

TLIX0037 Apply border clearance procedures

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to apply customs clearance procedures.

This unit includes identifying customs clearance processes and potential problems. It also includes determining if customs clearance by Self Assessed Clearance (SAC) is appropriate for the subject consignment and identifying and determining type of formal import declaration requirements and goods are dealt with in accordance the clearance received.

Work is undertaken in a range of environments, including small to large worksites, in the customs broking and international supply chain industries.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Customs Broking.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Manage customs clearance processes

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1** Information supplied for customs clearance is confirmed as compliant with regulatory requirements
