TLIX0050 Apply knowledge of technical regulatory framework

Release: 1

TLIX0050 Apply knowledge of technical regulatory framework

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to apply knowledge of the technical regulatory framework.

It includes accessing and interpreting and using knowledge of the technical regulatory framework in accordance with relevant organisational policy and procedures.

The application of this knowledge is required by people who are not specialists of the technical regulatory framework but need the knowledge to inform their decision making. The application of technical regulatory framework knowledge is specific to a variety of component processes in materiel logistics activities.

This unit was developed for logistics specialists working within materiel logistics but may be applicable to individuals in broader logistics roles.

Individuals work independently or as part of a team under direct or indirect supervision, use discretion and judgement, and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Not applicable.

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Access and interpret relevant technical regulatory framework information	1.1	Relevant technical regulatory framework requirements are identified and obtained and checked for compliance
		1.2	Technical regulatory information obtained is analysed to determine relevance and application to the organisation
		1.3	Outcomes of the analysis are documented and recommendations relevant to technical regulatory requirements are determined
		1.4	Stakeholders are identified and consulted in accordance with regulatory requirements
2	Use knowledge of technical regulatory framework	2.1	Technical regulatory requirements and recommendations relevant to materiel and materiel logistics are applied in accordance with organisational policy and procedures and presented to relevant stakeholders
		2.2	Effectiveness of recommendations is assessed, reviewed and recorded in accordance with organisational policy and procedures
		2.3	Recommendations are adjusted as required and documented for future application in accordance with organisational policy and procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions can be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to TLIX4032 Apply knowledge of technical regulatory framework.
