Assessment Requirements for TLIX0069 Manage contracted support services

Release: 1

Assessment Requirements for TLIX0069 Manage contracted support services

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- analysing and validating information accurately
- analysing task complexities such as limitations, vulnerabilities and time limitations
- applying a broad range of problem-solving strategies
- assessing risk posed to the successful implementation of contract support services
- communicating and negotiating with contractors and other stakeholders
- developing a contract supervision strategy for contract support being augmented with own organisation in a field deployment context
- drafting and releasing complex forms of written communication
- identifying potential solutions to problems or challenges to progress operations
- interpreting and applying complex documents such as contracts, legislation and guidelines
- interpreting policies and procedures
- making decisive, informed decisions that align with organisational requirements
- networking with a diverse range of service providers, contractors and end users
- planning and organising own tasks in accordance with organisational requirements
- providing accurate and balanced reporting on contract performance
- responding to contract variations and demonstrating how these affect the contract supervision strategy
- using appropriate information technology and software.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- concept of profitability and cost management relating to contracted support services
- contract performance management
- equal employment opportunity, equity and diversity principles
- negotiation skills
- organisation, function and logistics support capabilities
- organisational writing conventions

- planning processes
- privacy and confidentiality requirements
- probity principles and issues
- procurement processes and requirements
- relevant legislation, policies, practices and guidelines relating to contract administration, including environmental, purchasing guidance, logistics support concepts, and work health and safety (WHS)/occupational health and safety (OHS)
- risk management relating to contracted support services.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
