Assessment Requirements for TLIX0072 Organise health support operations

Release: 1

Assessment Requirements for TLIX0072 Organise health support operations

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying knowledge of health planning and coordination
- applying health planning tools to inform health planning
- consulting with health care clinicians and providers
- delivering clear, concise, accurate and authoritative instructions
- identifying relationships between organisational goals and recognising how own planning contributes to achieving these goals
- leading clinicians
- liaising with external agencies to coordinate health support
- preparing health related reports and returns
- supervising health care workers
- using information management systems
- working closely with a senior clinical officer to coordinate health support.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- health stores and equipment resupply systems and procedures
- legislative and regulatory environment as it relates to materiel logistics
- logistics support analysis principles and processes
- organisational policy and procedures
- organisational role relevant to specialist logistic support
- patient tracking and administration
- planning processes for health support operations
- policy and procedures relating to evacuation
- preparedness requirements of health care workers
- principles of health support
- requirements relating to managing health waste

- supplying, handling and storing medical and health products
- tasks and composition of health elements and their points of interaction.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
