**Assessment Requirements for TLIX0075
Plan and organise road transport
operations**

Release: 1

Assessment Requirements for TLIX0075 Plan and organise road transport operations

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- analysing and validating information accurately
- analysing task complexities such as limitations, freedoms, vulnerabilities, time limitations
- applying a broad range of problem-solving strategies
- applying planning process to produce suitable road movement plans
- drafting and releasing complex forms of written communication
- interpreting instructions and applying to actions and tasks
- interpreting policies and procedures
- making decisive, informed decisions that align with organisational requirements
- managing at least two different road transport operations such as replenishment operations and passenger transport
- managing own planning tasks in accordance with organisational requirements
- navigating a vehicle
- undertaking analysis to determine where internal and external factors impact on transport support requirements
- using appropriate information management systems.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- communication techniques relevant to road transport operations
- environmental considerations for planning transport support
- fatigue management strategies for planning and conducting road transport
- fuel usage and vehicle distance planning
- logistics analysis principles and processes
- logistics concepts
- organisation function and logistics capabilities
- organisational policy and procedures relevant to road transport and convoy operations
- organisational writing conventions

- passenger transport operations
- planning processes for planning and conducting road convoy operations
- regulatory standards and requirements for road transport
- replenishment operations
- requirements of different types of loads
- road traffic rules
- vehicle and transport equipment capabilities and limitations.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including legislation, regulations, codes of practice, workplace procedures and operation manuals.
