TLIX4022 Implement and monitor configuration management plans

Release: 1

TLIX4022 Implement and monitor configuration management plans

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Application

This unit involves the skills and knowledge required to implement and monitor configuration management plans in accordance with relevant organisational policy and procedures

It includes adjusting current and future activity, amending plans, acquiring resources, liaising with stakeholders and providing associated reports.

This unit was developed for configuration management specialists working within materiel logistics but is applicable to individuals in broader logistics roles.

Typically these individuals work independently or as part of a team under direct and/or indirect supervision, use discretion and judgement, and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

X – Logistics

Unit Sector

Not applicable.
