# **Assessment Requirements for TLIX4030**

## **Apply knowledge of materiel sustainment**

**Release: 1**

# **Assessment Requirements for TLIX4030 Apply knowledge of materiel sustainment**

## **Modification History**

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## **Performance Evidence**

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- adhering to relevant materiel sustainment requirements
- analysing and interpreting materiel sustainment information to determine where internal and external factors impact on integrated logistics requirements, and adjusting planning accordingly
- applying materiel sustainment knowledge to assist work being performed and to guide problem solving
- consulting and negotiating with key internal and external stakeholders and resolving potential areas of conflict or concern to ensure overall objectives are achieved
- displaying resilience by continuing to move forward despite criticism or setbacks
- focusing on clear communication of materiel sustainment information, presenting information confidently and selecting appropriate medium for communication to a range of audiences
- identifying relationships between organisational goals and recognising how own work contributes to achieving these goals
- using appropriate information technology and software.

## **Knowledge Evidence**

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria include knowledge of:

- contract management
- materiel life cycle
- materiel sustainment knowledge relevant to the work performed
- materiel sustainment relevant to materiel and materiel systems
- organisational policy and procedures
- organisational role relevant to materiel sustainment
- own role in relation to wider organisational or project context

- safety, legislative and statutory requirements, including relevant environmental and sustainability issues.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- computer and relevant software
- legislation, guidelines, procedures and protocols relating to materiel sustainment
- materiel sustainment plans.
