# TLIX5019 Provide specialist materiel sustainment advice

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Application

This unit involves the skills and knowledge required to provide specialist advice related to materiel sustainment in accordance with relevant organisational policy and procedures.

It includes identifying issues, providing advice, formulating options and selecting preferred option/s to address identified issues.

This unit of competency specifically addresses advice that is relevant to materiel sustainment activity; it is not intended to cover technical advice that is provided in a broader context of the organisational endeavour or a professional discipline.

This unit was developed for materiel sustainment specialists working within materiel logistics but is applicable to individuals in broader logistics roles.

Typically these individuals work independently or as part of a team under direct and/or indirect supervision, use discretion and judgement, and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
