Assessment Requirements for TLIX5039 Plan and conduct road convoy

Release: 1

Assessment Requirements for TLIX5039 Plan and conduct road convoy

Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- analysing and validating numerical information accurately
- analysing task complexities such as limitations, freedoms, vulnerabilities, time limitations
- applying a broad range of problem-solving strategies
- applying planning process to produce suitable road movement plans
- drafting and releasing complex forms of written communication
- interpreting instructions and applying to actions and tasks
- interpreting policies and procedures
- managing own planning tasks in accordance with organisational requirements
- navigating a vehicle
- supervising a team
- using appropriate information technology and software.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- dangerous cargo
- environmental considerations for planning transport
- fatigue management strategies for planning and conducting road convoy
- fuel usage and vehicle distance planning
- organisation, its function and logistics support capabilities
- organisational policy and procedures relevant to road transport and convoy operations
- organisational writing conventions
- planning process for planning and conducting road convoy
- regulatory standards and requirements for road transport

- road traffic rules
- vehicle and transport equipment capabilities and limitations.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
