**Release: 1**

# Assessment Requirements for TLIX5041 Organise supply support on deployment

## Modification History

Release 1. This is the first release of this unit of competency in the TLI Transport and Logistics Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- analysing and validating numerical information accurately
- analysing task complexities such as limitations, freedoms, vulnerabilities, time limitations
- applying a broad range of problem-solving strategies
- applying supply knowledge
- interpreting instructions and applying information to actions and tasks
- interpreting policies and procedures
- making decisive, informed decisions that align with organisational requirements
- managing own planning tasks in accordance with organisational requirements
- moving forward despite planning task difficulty
- preparing and issuing instructions that clearly communicate intent and operational tasks
- using appropriate information technology and software.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- disposal processes
- environmental considerations for providing supply support
- financial delegation limits
- logistics support analysis principles and processes
- logistics support concepts
- organisation, its function and logistics support capabilities
- organisational policy and procedures relevant to supply
- organisational role relevant to specialist logistics support
- organisational writing conventions
- planning process

- return processes
- salvage processes
- warehousing procedures for hazardous stocks, segregation, dispersion requirements and stock compatibility
- warehousing procedures for receipts and issues
- WHS/OHS.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals.
