- applying procedures for compliance with legislation
- carrying out complex calculations
- communicating effectively with a range of stakeholders
- conducting calculations and making appropriate adjustments as part of routine activities in customs clearance operations
- examining documents for accuracy and completeness
- identifying non-compliance and responding accordingly
- implementing timeframes
- implementing dispute resolution procedures
- managing quality customer service
- providing accurate advice
- reading and interpreting current customs regulations as amended
- reading and interpreting the current Australian Customs Act as amended
- sourcing information on developments in customs clearance practices
- using software application systems.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- current Acts, regulations and amendments as they relate to refunds, remissions and drawbacks
- drawbacks and Tradex Scheme
- exports
- landed costs
- refunds and post warrant amendments

- refunds, rebates and remissions of duty
- securities and temporary imports
- various forms and functions of securities and temporary importations.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the *Standards for Registered Training Organisations* current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so. Where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment include:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
