TLIA4107B Manually sort mail and parcels
TLIA4107B Manually sort mail and parcels

Modification History

Unit Descriptor
This unit involves the skills and knowledge required to manually sort mail and parcels in accordance with workplace requirements, including carrying out required preparations of the work area, manually sorting mail and parcels, and finalising the required sorting processes. The sorting processes include accurately and efficiently organising mail and parcels into groups for further processing or distribution and containerising processed mail and parcels ready for transfer to the next processing or distribution point.

Application of the Unit
Work must be carried out in compliance with the regulations and workplace requirements pertaining to the processing of mail and parcels. Work is normally performed under general supervision, usually in a team or outstation environment. It involves the application of workplace procedures and regulatory requirements to the manual sorting of mail and parcels as part of work activities in the postal and allied industries.

Licensing/Regulatory Information

Pre-Requisites

Employability Skills Information
The required outcomes described in this unit of competency contain applicable facets of Employability Skills. The Employability Skills Summary of the qualification in which this competency is packaged will assist in identifying employability skill requirements.

Elements and Performance Criteria Pre-Content
Elements describe the essential outcomes of a unit of competency. Performance criteria describe the required performance needed to demonstrate achievement of the element. Assessment of performance is to be consistent with the evidence guide.
## Elements and Performance Criteria

### Elements and Performance Criteria

<table>
<thead>
<tr>
<th>Element</th>
<th>Performance Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Prepare to sort mail and parcels manually</td>
<td>1.1 Individual and work team priorities and responsibilities are identified and confirmed</td>
</tr>
<tr>
<td></td>
<td>1.2 All OH&amp;S and environment protection procedures and requirements for the workplace are identified, accessed and applied</td>
</tr>
<tr>
<td></td>
<td>1.3 The availability of mail and parcels to be processed is identified and confirmed</td>
</tr>
<tr>
<td></td>
<td>1.4 Mail and parcels to be processed are transferred to processing point</td>
</tr>
<tr>
<td></td>
<td>1.5 Labels for identifying the destination of mail are created and affixed to trays</td>
</tr>
<tr>
<td>2 Sort mail and parcels manually</td>
<td>2.1 Internal operating procedures and standards are applied to the manual processing of parcels and mail</td>
</tr>
<tr>
<td></td>
<td>2.2 Mail and parcels are inspected to ensure that all criteria have been met</td>
</tr>
<tr>
<td></td>
<td>2.3 Mail and parcels are sorted accurately and correctly in compliance with priority for processing and manual sorting procedures</td>
</tr>
<tr>
<td></td>
<td>2.4 Mail and parcels are handled safely to minimise risk of injury to people and damage to mail and parcels</td>
</tr>
<tr>
<td></td>
<td>2.5 Mail and parcels that are damaged, underpaid, incorrectly classified, or are non-conforming items are identified, separated and re-processed in accordance with workplace procedures</td>
</tr>
<tr>
<td></td>
<td>2.6 Legal requirements and workplace policies and procedures in relation to the security of mail and parcels are followed</td>
</tr>
</tbody>
</table>
3 Complete process for manually sorting mail and parcels

3.1 Mail and parcel sorting frames/bag racks are cleared down, and mail and parcel containers/bags are sealed and labelled in accordance with workplace procedures

3.2 Mail and parcels are transferred to next processing or distribution point using appropriate shifting equipment and labels scanned as required

3.3 Information required to complete records of mail and parcels processed is provided and recorded

3.4 Excess equipment is removed and work area is prepared for next activity/shift
Required Skills and Knowledge

REQUIRED KNOWLEDGE AND SKILLS

This describes the essential knowledge and skills and their level required for this unit.

**Required knowledge:**

- Australian and international codes and regulations relevant to mail operations
- Relevant OH&S and environmental protection procedures and guidelines
- Workplace procedures and policies for the manual sorting of mail and parcels
- Focus of operation of work systems, equipment, management and site operating systems for the manual sorting of mail and parcels
- Problems that may occur when manually sorting mail and parcels and appropriate action that can be taken to resolve/avoid the problems
- Requirements of mail sorting systems, operations and relevant equipment
- Hazards that may occur during the manual sorting of mail and parcels and ways of controlling the risks involved
- Site layout
- Relevant personal protective equipment and procedures for its use

**Required skills:**

- Communicate effectively with others when manually sorting mail and parcels
- Read and interpret instructions, procedures and labels relevant to the manual sorting of mail and parcels
- Interpret and follow operational instructions and prioritise work
- Complete documentation related to the manual sorting of mail and parcels
- Work collaboratively with others when manually sorting mail and parcels
- Adapt appropriately to cultural differences in the workplace, including modes of behaviour and interactions with others
- Promptly report and/or rectify any identified problems, faults or malfunctions that may arise during the manual sorting of mail and parcels in accordance with regulatory requirements and workplace procedures
Implement contingency plans for unplanned events that may arise during the manual sorting of mail and parcels

Plan own work including predicting consequences and identifying improvements

Apply security and safety precautions and required action to minimise, control or eliminate hazards that may exist during work activities

Modify activities depending on differing operational contingencies, risk situations and environments

Work systematically with required attention to detail without injury to self or others, or damage to goods or equipment

Operate and adapt to differences in equipment and systems in accordance with standard operating procedures

Select and use required personal protective equipment conforming to industry and OH&S standards

Identify, select and use relevant equipment, processes and procedures when manually sorting mail and parcels
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required knowledge and skills, the range statement and the assessment guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The evidence required to demonstrate competency in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria of this unit and include demonstration of applying:

- the underpinning knowledge and skills
- relevant legislation and workplace procedures
- other relevant aspects of the range statement

Context of and specific resources for assessment

Performance is demonstrated consistently over a period of time and in a suitable range of contexts

Resources for assessment include:

- a range of relevant exercises, case studies and other simulated practical and knowledge assessment, and/or
- access to an appropriate range of relevant operational situations in the workplace

In both real and simulated environments, access is required to:

- relevant and appropriate materials and/or equipment, and/or
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals

Method of assessment

Assessment of this unit must be undertaken by a registered training organisation

As a minimum, assessment of knowledge must be conducted through appropriate written/oral tests

Practical assessment must occur:

through appropriately simulated activities at
the registered training organisation, and/or
in an appropriate range of situations in the
workplace
Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

Work may be conducted: in a range of work environments by day or night

Workplaces may comprise: large, medium or small worksites

Operations may include: shiftwork

Customers may be: internal or external

Hazards may include: vehicular traffic and pedestrians
dust and vapours
hazardous or dangerous materials
humidity, air temperature
lighting conditions
machinery/equipment moving parts
noise

Weighing devices may be: mechanical
automated
weighbridge

Work priorities may be communicated through: briefings
noticeboards
announcements

Equipment may include: mail trays, tubs and bags
sorting frame/bag rack
scanners
tipping belt
knife
pallet jack/maverick
powered lifters
king fishers
scales
carousel
Unit Load Device (ULD) and Wheeled Unit Load Device (WULD)
Vertical Sorting Frame (VSF) and Vertical Sorting Division (VSD)
ULD tipper
carriage belts
strapping machine

Personal protective equipment may include:
gloves
safety headwear and footwear
safety glasses
two-way radios
protective clothing
high visibility clothing

Communication in the work area may include:
phone
fax
email
electronic data transfer (EDI)
RF systems
radio
oral, aural or signed communications

Depending on the type of organisation concerned and the local terminology used, workplace procedures may include:
company procedures
enterprise procedures
organisational procedures
established procedures

Information/documents may include:
workplace policies, operating procedures and practices
Management Operating System (MOS)
Management Information System (MIS)
sorting system information which may include:
postcode book, national sort plan and state sort plan
post guide
international postcode directory
labels chart
mail identification numbers, codes and labels

manifests, consignment notes, bar codes, mail and container identification
quality assurance procedures
induction documentation
competency standards and training materials
job specifications and procedures
award, enterprise bargaining agreement or other industrial arrangements
manufacturers specifications
codes of practice, including national standards for manual handling and the industry safety code
supplier and/or/client instructions
HAZCHEM chart/material safety data sheets
safety observation feedback program
emergency procedures

Applicable regulations and legislation may include:

relevant codes and regulations pertaining to mail operations
Australian and international regulations and codes of practice for the handling and transport of dangerous goods and hazardous substances
relevant state/territory OH&S and environmental protection legislation
workplace relations regulations
workers compensation regulations
equal opportunity, equal employment opportunity and affirmative action legislation
Unit Sector(s)

Competency Field
A - Handling Cargo/Stock
