TLISS00001 Access and Move a Track Vehicle Within a Defined Worksite Skill Set

Release: 2

TLISS00001 Access and Move a Track Vehicle Within a Defined Worksite Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set targets anyone who is required to access rail track to run track vehicle within a defined worksite as part of their job role. It is not aligned to any specific qualification and whilst it can be achieved separately it is intended for use by track vehicle operators.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be completed.

Unit/s	
TLIF2080B	Safely access the rail corridor
TLIC2054A	Access rail track to run track vehicle within a defined worksite

Target Group

This is a skill set used in track vehicle operations within the general rail infrastructure environment where a track vehicle is to be moved within a defined worksite.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 2) meet the needs of track vehicle operation duties. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a track vehicle operator within the general rail infrastructure environment.
