TLISS00001 Access and Move a Track Vehicle Within a Defined Worksite Skill Set

Release 3

TLISS00001 Access and Move a Track Vehicle Within a Defined Worksite Skill Set

Modification History

Release 3 - This is the third release of this skill set in TLI10 Transport and Logistics Training Package Version 3.0.

Units revised. Equivalent to previous version of the skill set.

Description

This skill set targets anyone required to access rail track to run track vehicle within a defined worksite as part of their job role. It is not aligned to any specific qualification and while it can be achieved separately, it is intended for use by track vehicle operators.

Pathways Information

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be completed.

Unit/s	
TLIC2054B	Access rail track to run track vehicle within defined worksite
TLIF2080C	Safely access the rail corridor

Target Group

This is a skill set used in track vehicle operations within the general rail infrastructure environment where a track vehicle is to be moved within a defined worksite.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 3) meet the needs of track vehicle operation duties. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a track vehicle operator within the general rail infrastructure environment.
