TLISS00008 Decommission Mechanical Signalling Infrastructure and Interlocking Equipment Skill Set

Modification History

Not applicable.

Description

Not applicable.

Pathways Information

This skill set is to be undertaken in addition to the Certificate III in Mechanical Rail Signalling and requires persons to certify that all works have been carried out correctly.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **1 unit** of competency must be completed.

Unit/s	
TLIS4007A	**Decommission mechanical signalling infrastructure and interlocking equipment from service**

Target Group

This is a skill set used by persons required to decommission mechanical signalling infrastructure and interlocking equipment in a rail infrastructure environment.

Suggested words for Statement of Attainment

This competency from the TLI10 Transport and Logistics Training Package (Version 2) meets the needs to install mechanical equipment. The unit of competency is drawn from a nationally endorsed Training Package, and provides the skills and knowledge for a person decommissioning mechanical signalling and interlocking equipment in the general rail infrastructure environment.
