Release: 2

TLISS00044 Repairing Steel Structures Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set is to be undertaken in addition to the Certificate II in Rail Infrastructure (Structures) and targets those workers who will also repair steel structures.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of 2 **units** of competency must be completed.

Unit/s	
TLIW3034A	Apply protective coating systems to structures
TLIB2082A	Repair steel structures

Target Group

This is a skill set covering the role of steel structures repairer within the general rail infrastructure environment.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 2) meet the needs for repairing steel structures. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a steel structures repairer operating within the general rail infrastructure environment.
