TLISS00060 Ultrasonic Points and Crossings Testing Skill Set

Release: 2

TLISS00060 Ultrasonic Points and Crossings Testing Skill Set

Modification History

Not Applicable

Description

Not Applicable

Pathways Information

This skill set is to be undertaken in addition to the Certificate II in Rail Infrastructure (Track Work) or a recognised qualification in non-destructive testing (NDT) equivalent to a Certificate II or above. It targets those rail track workers who will also test points and crossings using ultrasonic equipment.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be completed.

Unit/s	
TLIS3010A	Test rail using ultrasonic equipment
TLIS3011A	Test rail using nondestructive testing equipment

Target Group

This is a skill set for persons required to test points and crossings using either ultrasonic or non-destructive testing (NDT) equipment in the general rail infrastructure environment.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package (Version 2) meet the needs of ultrasonic testing of points and crossings. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as an ultrasonic points and crossings tester operating within the general rail infrastructure environment.
