TLISS00068 Tram or Light Rail Track Inspection Skill Set

Release 1

TLISS00068 Tram or Light Rail Track Inspection Skill Set

Modification History

Release 1 - This is the first release of this skill set in TLI10 Transport and Logistics Training Package Version 3.0.

Description

This skill set is designed for anyone who is required to inspect tram or light rail tracks to ensure it is fit for operations.

Pathways Information

This skill set is to be undertaken in addition to the TLI22213 Certificate II in Tram or Light Rail Infrastructure and targets workers who will also inspect tram or light rail track for defects.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

A total of **2 units** of competency must be attained.

Unit/s

TLIB3099A	Examine track infrastructure
TLIB3100A	Visually inspect track infrastructure

Target Group

This is a skill set covering the role of a tram or light rail track inspector.

Suggested words for Statement of Attainment

These competencies from the TLI10 Transport and Logistics Training Package Version 3.0 meet the needs of tram or light rail track inspection. The competencies are drawn from a nationally endorsed Training Package, and provide the skills and knowledge for a person working as a tram or light rail track inspector operating within the tram or light rail infrastructure environment.
