

**Australian Government**

# **TLIX5055A Apply anti-dumping and countervailing measures**

**Release 1**

# **TLIX5055A Apply anti-dumping and countervailing measures**

## **Modification History**

Release 1. This is the first release of this unit.

## **Unit Descriptor**

This unit involves the skills and knowledge required to identify goods subject to dumping and/or countervailing measures and to calculate applicable duties.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

## **Application of the Unit**

Work must be carried out in compliance with the relevant Customs and related legislation and workplace requirements concerning the application of anti-dumping and/or countervailing duties.

Work is undertaken in a range of environments including small to large worksites in the Customs Broking Industry.

## **Licensing/Regulatory Information**

Refer to Unit Descriptor.

## **Pre-Requisites**

Nil

## **Employability Skills Information**

This unit contains employability skills.

## **Elements and Performance Criteria Pre-Content**

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Assessment of performance is to be consistent with the evidence guide.

## Elements and Performance Criteria

### **1 Identify goods subject to anti-dumping and/or countervailing measures**

- 1.1 Dumping alert for a particular tariff classification and statistical code in the import declaration is recognised
- 1.2 Dumping Commodities Register is reviewed
- 1.3 Date of effect is verified

- 2.5 Export country code is determined where required
- 2.6 Exchange rate is input where required
- 2.7 Dumping unit quantity (DUS) is reported in accordance with software application system requirements

### **3 Advise clients on anti-dumping and countervailing legislation**

- 3.1 Clients are informed of basic requirements of the anti-dumping and countervailing legislation
- 3.2 Client understanding of anti-dumping and countervailing information provided is confirmed and any client misunderstanding is clarified

## Required Skills and Knowledge

This section describes the knowledge and skills required for this unit.

### Required knowledge:

- Australian anti-dumping and countervailing legislation
- Content and use of Dumping Commodity Register
- Policy and procedures involved in the application, administration, review and revocation of anti-dumping and/or countervailing measures in Australia
- Processes to determine and calculate anti-dumping and countervailing duties

### Required skills:

- Accurately calculate anti-dumping and/or countervailing duties
- Communicate effectively with clients
- Identify exempt goods and suppliers
- Identify inclusive goods and suppliers
- Identify relevant country of export
- Read and interpret appropriate Acts and regulations
- Solve problems

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required knowledge and skills, the range statement and the assessment guidelines for this Training Package.

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the Elements, Performance Criteria, Required Skills, Required Knowledge and include:

- sequencing activity in a way that demonstrates the development of competence
- ensuring currency of relevant legislative and regulatory knowledge
- providing high quality advice to clients.

### **Context of and specific resources for assessment**

Performance is demonstrated consistently over time and in a suitable range of contexts.

Resources for assessment include access to:

- workplace where activities with individuals or small groups can be conducted
- relevant documents used in industry
- relevant documents that impact on work activities
- range of relevant exercises, case studies, scenarios and/or other simulated practical and knowledge assessments
- appropriate range of relevant operational situations in the workplace.

In both real and simulated environments, access is required to:

- relevant and appropriate materials and equipment
- applicable documentation including legislation and the Dumping Commodities Register.

### **Method of assessment**

Practical assessment must occur in an:

- appropriately simulated workplace environment and/or
- appropriate range of situations in the workplace.

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate to this unit:

- direct observation of the candidate undertaking anti-dumping and/or countervailing assessments
- direct observation of the candidate applying relevant Dumping Commodities Register information to work practices
- performance and/or knowledge questions.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

Applicable regulations and legislation may include:

- Customs Act 1901
- Customs Administration Act 1985
- Customs Regulations 1926
- Customs Tariff (Anti-Dumping) Act 1975
- Customs Tariff (Anti-Dumping) Regulations 2013
