**UEE51120 Diploma of Engineering
Technology - Refrigeration and Air
Conditioning**

Release 2

UEE51120 Diploma of Engineering Technology - Refrigeration and Air Conditioning

Modification History

Release 2. Updated superseded imported elective units.

Release 1. This is the first release of this qualification in the UEE Electrotechnology Training Package

Qualification Description

This qualification covers competencies to develop systems and select equipment for heating, ventilation, air conditioning and/or refrigeration systems.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification

Packaging Rules

A total of **1600 weighting points** comprising:

920 core weighting points listed below; **plus**

680 general elective weighting points from the general elective units listed below.

Choose a total of **680 weighting points** elective units from the list below, of which between 0 and **270 weighting points** can be taken from Group A; and between 0 and **100 weighting points** must be taken from Group B; and between 60 and **170 weighting points** must be taken from Group C; and between 270 and **620 weighting points** must be taken from Group D.

Up to 270 weighting points of the general elective units Group A, may be selected, with appropriate contextualisation, from any relevant nationally endorsed Training Package or accredited course, provided selected units contribute to the vocational outcome of the qualification. Previously assigned weighting points are listed in the UEE Electrotechnology Companion Volume Implementation Guide (CVIG), if not listed weighting points will be 10 points, unless directed from the Electrotechnology Industry Reference Committee (IRC).

There are units of competency within this qualification that contain pre-requisites. Units of competency that have a pre-requisite requirement are identified by this symbol *. Refer directly to the units of competency to identify pre-requisite requirements to ensure all are complied with. A list of all pre-requisites is also provided in the UEE Pre-requisite Companion Volume.

Where imported units are selected, care must be taken to ensure all pre-requisite units specified

are complied with.

Core units		Weighting Points
UEECD0007	Apply work health and safety regulations, codes and practices in the workplace	20
UEECD0010	Compile and produce an energy sector detailed report	60
UEECD0016	Document and apply measures to control WHS risks associated with electrotechnology work*	20
UEECD0019	Fabricate, assemble and dismantle utilities industry components*	40
UEECD0022	Identify building techniques, methods and materials used in energy sector work activities*	40
UEECD0027	Participate in development and follow a personal competency development plan	20
UEECD0039	Provide solutions to basic engineering computational problems*	60
UEECD0051	Use drawings, diagrams, schedules, standards, codes and specifications*	40
UEERA0001	Analyse the operation of HVAC air and hydronic systems*	80
UEERA0002	Analyse the psychrometric performance of HVAC/R systems*	50
UEERA0003	Analyse the thermodynamic performance of HVAC/R systems	50
UEERA0028	Determine noise and vibration encountered in HVAC/R applications*	80
UEERA0034	Establish heat loads for commercial refrigeration and/or air conditioning applications*	80
UEERA0038	Establish the thermodynamic parameters of refrigeration and air conditioning systems*	80

UEERA0042	Evaluate thermodynamic and fluid parameters of refrigeration systems*	100
UEERA0061	Produce HVAC/R system design drawings*	80
UEERE0013	Develop strategies to address environmental and sustainability issues in the energy sector	20

Group A: Imported and common elective units.

**Weighting
Points**

BSBOPS203	Deliver a service to customers	20
CPCCWHS1001	Prepare to work safely in the construction industry	10
CPPBDN6106	Produce building information modelling for building design projects	100
HLTAID009	Provide cardiopulmonary resuscitation	10
ICTICT214	Operate application software packages	20
MEM16006	Organise and communicate information*	20
MEM16008	Interact with computing technology*	20
MEM30031A	Operate computer-aided design (CAD) system to produce basic drawing elements	40
MEM30032A	Produce basic engineering drawings	80
MEM30033A	Use computer-aided design (CAD) to create and display 3-D models*	40
UEECD0035	Provide basic instruction in the use of electrotechnology apparatus	20
UEECO0002	Maintain documentation	20
UEECO0015	Provide quotations for installation or service jobs	20
UEECO0017	Source and purchase material/parts for installation or service jobs	20

Group B: Qualification elective units.

**Weighting
Points**

UEECS0033	Use engineering applications software on	40
-----------	--	----

	personal computers	
UEERA0005	Apply safety awareness and legal requirements for ammonia refrigerant	10
UEERA0006	Apply safety awareness and legal requirements for carbon dioxide refrigerant	10
UEERA0007	Apply safety awareness and legal requirements for flammable refrigerants	10
UEERA0036	Establish the basic operating conditions of vapour compression systems*	60
UEERA0081	Select refrigerant piping, accessories and associated controls*	40

Group C: Qualification elective units. **Weighting Points**

UEECO0001	Estimate electrotechnology projects	40
UEERA0060	Produce HVAC/R control system diagrams*	40
UEERA0080	Select basic commercial refrigeration system equipment, components and accessories*	40
UEERA0082	Select residential air conditioning system equipment, components and accessories*	40
UEERE0015	Implement and monitor energy sector environmental and sustainable policies and procedures	20

Group D: Qualification elective units. **Weighting Points**

UEECD0041	Solve electrotechnical engineering problems	60
UEECD0048	Undertake computations in an energy sector environment	120
UEECO0014	Prepare tender submissions for electrotechnology projects*	60
UEERA0014	Design ammonia refrigerated systems*	40
UEERA0015	Design carbon dioxide refrigerated systems*	40

UEERA0016	Design commercial refrigeration systems and select components*	80
UEERA0021	Design control systems for refrigeration or heating, ventilation and air conditioning systems*	80
UEERA0022	Design heating, ventilation and air conditioning (HVAC) systems and select components*	60
UEERA0023	Design hydrocarbon refrigerated systems*	40
UEERA0025	Design industrial refrigeration systems and select components*	80
UEERA0027	Design secondary refrigerant systems*	40
UEERA0039	Evaluate and report on building services energy management systems*	80
UEERA0040	Evaluate and report on the indoor air quality of buildings*	40
UEERE0012	Develop effective engineering strategies for energy reduction in buildings*	60

Qualification Mapping Information

This qualification replaces and is equivalent to UEE51111 Diploma of Engineering Technology - Refrigeration and Air-conditioning
