# **UEECD0009 Carry out routine work activities in an energy sector environment**

**Release: 1**

# UEECD0009 Carry out routine work activities in an energy sector environment

## Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

## Application

This unit involves the skills and knowledge required to carry out work activities in an energy sector environment.

It includes preparing, carrying out work activities in the energy sector and checking the quality of the work completed.

Practice in the workplace and during training is also subject to regulations directly related to work health and safety (WHS)/occupational health and safety (OHS) and where applicable contracts of training, such as apprenticeships.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

## Pre-requisite Unit

UEECD0007 Apply work health and safety regulations, codes and practices in the workplace

## Competency Field

Cross Discipline

## Unit Sector

Electrotechnology

## Elements and Performance Criteria

### ELEMENTS

Elements describe the essential outcomes.

#### 1 Prepare work activity

### PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

**1.1** Work instructions for preparing work activity are obtained and confirmed

- 1.2 WHS/OHS policies and workplace procedures are communicated, confirmed and applied
  - 1.3 Tools, equipment and personal protective equipment (PPE) necessary for work are identified, checked and are safe to use in accordance with workplace procedures
  - 1.4 Relevant person/s is consulted to ensure work is coordinated effectively with others
  - 1.5 Resources and materials required for work are confirmed, scheduled and obtained in accordance with workplace procedures
  - 1.6 Schedule of work and safe work practices are confirmed in accordance with work instructions and job requirements
- 2 Carry out work activity**
- 2.1 WHS/OHS policies and workplace procedures for safe work practices are followed to eliminate or minimise incidents
  - 2.2 Schedule of work is followed to ensure work is completed in agreed timelines, quality standard and with a minimum of waste
  - 2.3 Electrotechnology practices and electrical principles are applied to routine work activities
  - 2.4 Unplanned situations are responded to in accordance with workplace procedures in a manner that minimises risk to personnel and equipment
  - 2.5 Quality checks of work are undertaken in accordance with work instructions and workplace procedures
- 3 Check completed work**
- 3.1 Checks are made to ensure work activity is in accordance with work instructions and job requirements
  - 3.2 Relevant person/s is notified of work activity completion
  - 3.3 Tools, equipment, surplus resources and materials are cleaned, checked and returned to storage in accordance with workplace procedures
  - 3.4 Work area is cleaned, made safe and sustainable energy practices are followed

- 3.5** Workplace records are updated in accordance with work instructions and workplace procedures

## Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UEE Electrotechnology Training Package Companion Volume Implementation Guide.

## Unit Mapping Information

This unit replaces and is equivalent to UEENEEE148A Carry out routine work activities in an energy sector environment.
