**Assessment Requirements for UEECD0047
Supervise and coordinate energy sector
work activities**

Release: 1

Assessment Requirements for UEECD0047 Supervise and coordinate energy sector work activities

Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two separate occasions and include:

- accessing appropriate plant, materials and personnel
- applying relevant work health and safety (WHS)/occupational health and safety (WHS/OHS) requirements, including using risk control measures
- dealing with conflicts in accordance with workplace procedures
- dealing with job variations in accordance with workplace procedures
- dealing with unplanned situations in accordance with established workplace procedures
- documenting supervision and coordination activities
- ensuring work completion documentation is accurate and forwarded to appropriate person/s
- obtaining and applying job specification and requirements
- obtaining the cooperation of others
- preparing to supervise and coordinate work activities
- providing guidance and instructions to relevant person/s
- supervising and coordinating work activities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- analytical techniques in problem solving
- dispute resolution
- effective instruction methods
- methods for seeking the cooperation of others
- problem-solving techniques
- relevant job specifications and requirements
- relevant manufacturer specifications
- relevant plant, materials and skills
- relevant job safety assessments or risk mitigation processes
- relevant WHS/OHS legislated requirements

- relevant workplace documentation
- relevant workplace policies and procedures
- responsibilities of workplace supervisors.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in suitable workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated suitable workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant and appropriate materials, tools, facilities and equipment currently used in industry
- resources that reflect current industry practices in relation to supervising and coordinating energy sector work activities
- applicable documentation, including workplace procedures, equipment specifications, regulations, codes of practice and operation manuals.
