UEERE0086 Promote sustainable energy practices

Release: 1

UEERE0086 Promote sustainable energy practices

Modification History

Release 1. This is the first release of this unit of competency in the UEE Electrotechnology Training Package.

This unit replaces and is not equivalent to UEERE0020 Promote sustainable energy practices in the community. Modifications include:

- Unit title changed
- Unit application updated
- Significant amendments made to Elements and Performance Criteria
- Range of conditions updated
- Updates to performance and knowledge evidence requirements and CVIG content developed
- Assessment conditions updated.

Application

This unit involves the skills and knowledge required to promote sustainable energy practices.

It includes identifying the purpose of promotional opportunities, developing promotional strategies for different audiences, completing promotional activities that meet audience needs and organisational objectives, following up after promotion, making referrals, evaluating promotional activities, and completing relevant administration and documentation after promotion.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable

Competency Field

Renewable Energy

Unit Sector

Electrotechnology

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Prepare to promote sustainable energy practices

- 1.1** Work activities are identified, planned and sequenced to ensure work health and safety (WHS)/occupational health and safety (OHS) requirements and workplace policies and procedures are followed
- 1.2** Purpose and audience and for promotional activities are identified, and intended outcomes confirmed
- 1.3** Promotional activities are planned in accordance audience needs and intended outcomes
- 1.4** Resources required to support promotional activities are identified and developed and/or obtained
- 1.5** Approval for proposed promotional strategy and resources is obtained in accordance with organisational policies and procedures
- 1.6** Relevant people are consulted to ensure promotional activities are coordinated with others

2 Promote sustainable energy practice

- 2.1** Promotional activities are conducted in accordance with approved promotional strategy
- 2.2** Questions posed during promotion are answered, and any follow-up activities and/or additional information required, are identified and recorded
- 2.3** Post-promotion information and/or resources are provided, and referrals to other personnel completed, in accordance with any commitments made during promotion
- 2.4** Promotional activities are evaluated and opportunities for improvement identified and documented
- 2.5** Documentation/reports are completed to ensure promotional activity requirements are met

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UEE Electrotechnology Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is not equivalent to UEERE0020 Promote sustainable energy practices in the community.
