UEESS00189 Rail Signalling Constructor Skill Set

Release 1

UEESS00189 Rail Signalling Constructor Skill Set

Modification History

Release 1. This is the first release of this Skill Set in the Electrotechnology Training Package.

Description

This Skill Set covers the skills and knowledge required to install rail signalling equipment in the rail signalling sector.

Pathways Information

The units of competency in this Skill Set will contribute to the completion of relevant Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications from the UEE Electrotechnology Training Package.

Units in this Skill Set include prerequisite requirements that must be met.

Licensing/Regulatory Information

Persons achieving this Skill Set will need to fulfil the applicable state/territory legislated rail safety requirements and to comply with relevant codes of practice, rules and/or guidelines.

Skill Set Requirements

A total of **4 units of competency** must be attained.

There are units of competency within this Skill Set that contain pre-requisites. Units of competency that have a pre-requisite requirement are identified by this symbol *. Refer directly to the units of competency to identify pre-requisite requirements to ensure all are complied with. A list of all pre-requisites is also provided in the UEE Pre-requisite Companion Volume.

UEERS0021*	Assemble and wire electrical rail signalling equipment
UEERS0024*	Install and maintain rail track circuit leads and bonds
UEERS0036*	Repair rail signalling power and control cables
UEERS0037*	Test copper rail signalling cables

Target Group

This Skill Set is intended for persons who are required to install rail signalling equipment.

Suggested words for Statement of Attainment

This Skill Set from the UEE Electrotechnology Training Package meets the industry requirements to install rail signalling equipment.
