UEE10110 Certificate I in ElectroComms Skills

Modification History

Not Applicable

Description

Scope
This qualification provides competencies to perform basic work activities, including identifying and using a range of components, accessories, materials, tools, equipment, technologies, and customs for carrying out work in the Electrotechnology -Communications Industry. Sectors in the industry are electronics, electrical, communications, including telecommunications - voice, data, video and information technology, computer systems, instrumentation, lifts, refrigeration and air conditioning, and renewable/sustainable energy.

Note: Sectors in the industry are electronics, electrical, communications including telecommunications - voice, data, video and information technology, computer systems, instrumentation, lifts, refrigeration and air conditioning, and renewable/sustainable energy.

Completion requirements

The requirements for granting this qualification will be met when competency is demonstrated and achieved for:

- All the Core competency standard units, **and**
- A combination of Elective competency standard units selected from Group A and/or Group B, to achieve a total weighting of 60 points, **and**
- All the required pre-requisite competency standard units.

Core Competency Standard Units All Core competency standard units to be achieved		Weighting Points
UEENEED001B	Use basic computer applications relevant to a workplace	20
UEENEEE001B	Apply OHS practices in the workplace	20
UEENEEE079A	Identify and select components, accessories and materials for electrotechnology work activities	20
UEENEEE048C	Carry out routine work activities in an electrotechnology environment	40
UEENEEK042A	Participate in environmentally sustainable work practices	20
Total points in core		**120**

Elective Competency Standard Units Complete Elective units to achieve a total of weighting of 60 points from the following groups:			
Group		**Minimum points**	**Maximum points**
A	**Imported and Common Competency Standard Units** Imported units from other training packages and/or state accredited courses can be added to this group, but they must be selected from qualifications where the unit is first packaged at AQF level 1. If units have not being assigned a weighting in the Electrotechnology Training Package, their weighting will be 10 points.	0	30

EE-Oz Training Standards

Elective Competency Standard Units Complete Elective units to achieve a total of weighting of 60 points from the following groups:		
B	**Qualification Electives** - **Schedule 1 Units** You may select all your elective units from this Group	30	60

Group A - **Imported and Common Elective Units**		**Weighting Points**
UEENEEC001B	Maintain documentation	20
UEENEEC002B	Source and purchase material/parts for installation or service jobs	20
UEENEEC008B	Receive and store materials and equipment for electrotechnology work	20
UEENEEC010B	Deliver a service to customers	20
	Imported units from other training packages and/or state accredited courses can be added to this group, but they must be selected from qualifications where the unit is first packaged at AQF level 1. If units have not being assigned a weighting in the Electrotechnology Training Package, their weighting will be 10 points. Note: For further information see *Transition to NQC Packaging Rules for Flexibility*, Page 48, UEE07 Electrotechnology Training Package, Version 4,Volume 1 Preliminary Information.	Up to 30 Points

Group B - Qualification Electives - Schedule 1 Units You may select all your elective units from this Group		Weighting Points
UEENEEB001B	Operate and maintain an amateur radio communication station	40
UEENEEE002B	Dismantle, assemble and fabricate electrotechnology components	40
UEENEEE003B	Solve problems in extra-low voltage single path circuits	40
UEENEEE005B	Fix and secure equipment	20
UEENEEE020B	Provide basic instruction in the use of electrotechnology apparatus	20

Note:

1. In selecting elective unit's considerations to career planning advice should be given to units that form part a pre-requisite pathway for the progression to achieve particular competencies or qualification at a higher level.

END OF QUALIFICATION

Certificate II

UEE20111

Certificate II in Split Air-conditioning and Heat Pumps Systems
