UEESS00068 Hazardous Areas - Install Explosion-Protected Equipment and Wiring Systems - Coal Mining

Release: 2

UEESS00068 Hazardous Areas - Install Explosion-Protected Equipment and Wiring Systems - Coal Mining

Modification History

Release	Action	Core/Elective	Details	Points
2	Update	N/A	Mapped skill set requirements	

Description

Not applicable.

Pathways Information

The units of competency in this skill set will contribute to the completion of relevant Diploma and Advanced Diploma qualifications from the UEE11 Electrotechnology Training Package. Please consult the packaging rules of the relevant qualification for further advice.

Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

Skill Set Requirements

UEENEEM023A   Install explosion-protected equipment and wiring systems - coal mining
UEENEEM080A   Report on the integrity of explosion-protected equipment in a hazardous area

Target Group

It is essential that anyone undertaking this skill set already holds the Competency Standard Unit:
UEENEEG105A Verify compliance and functionality of low voltage general electrical installations
OR
A current unrestricted electrical licence issued in an Australian State or Territory.
Note :
This Skill Set is directly equivalent to the Unit 2.5 Install explosion-protected equipment and wiring systems in the Australian/New Zealand Standard AS/NZS 4761.1; 2008 Competencies for working with electrical equipment for hazardous areas (EEHA) Part 1: Competency Standards.
Equivalence includes endorsement in the explosion-protection techniques listed in the Range statement of the unit UEENEEM023A.

Suggested words for Statement of Attainment

This Skill Set from the UEE11 Electrotechnology Training Package meets the industry requirements for Install explosion-protected equipment and wiring systems - coal mining
