**Release: 2**

## UEESS00077 Instrumentation - Plan the installation of integrated systems

### Modification History

| Release | Action | Core/Elective | Details                       | Points |
|---------|--------|---------------|-------------------------------|--------|
| 2       | Update | N/A           | Mapped skill set requirements |        |

### Description

Not applicable.

### Pathways Information

The unit of competency in this skill set will contribute to the completion of relevant Certificate III, Certificate IV, Diploma and Advanced Diploma qualifications from the UEE11 Electrotechnology Training Package. Please consult the packaging rules of the relevant qualification for further advice.

### Licensing/Regulatory Information

Readers should ensure that they have also read the part of the Training Package that outlines licensing and regulatory requirements.

### Skill Set Requirements

UEENEEI140A Plan the electrical installation of integrated systems

## Target Group

It is essential that anyone undertaking this skill set already holds Competency Standard Units in electrical, electronic and data communication work. Examples of a suitable competency is (but not limited to):

UEENEEE108A Lay wiring/cabling and terminate accessories for extra-low voltage (ELV) circuits

or

UEENEEG106A Terminate cables, cords and accessories for low voltage circuits

It is suitable for employment-based programs under an approved contract of training and may be aligned with a vendor training program that is shown to have the same competency outcomes as this unit

## Suggested words for Statement of Attainment

This Skill Set from the UEE11 Electrotechnology Training Package meets the industry requirements for Planning Integrated Systems

## Custom Content Section
