

# **UEGNSG061 Monitor and control gas odourisation**

Release: 1

# **UEGNSG061 Monitor and control gas odourisation**

### **Modification History**

**Release 1.** This is the first release of this unit of competency in the UEG Gas Industry Training Package.

# **Application**

This unit involves the skills and knowledge required to operate odourisation equipment, monitor and control the odourisation of gas, and confirm odourant levels are maintained within acceptable range in accordance with relevant legislation, industry standards, codes of practice and workplace procedures.

It includes using appropriate tools, equipment and materials; ensuring relevant permits/authorisations are obtained; safely storing and handling required chemicals; operating gas odourisation equipment; monitoring gas odourisation and adjusting odourant levels; responding to spills and completing relevant documentation.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

# Pre-requisite Unit

Not applicable

# **Competency Field**

Gas Cross Discipline

#### **Unit Sector**

Gas Industry

#### **Elements and Performance Criteria**

#### **ELEMENTS**

#### PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Prepare to monitor and control odourisation of gas

1.1 Workplace safety, environmental and sustainable energy practices for the site are identified, obtained and understood

Approved Page 2 of 5

- Job requirements are obtained and interpreted from plans, specifications and instructions
- 1.3 Relevant job requirements and workplace procedures for work activities are discussed with relevant person/s, including third parties, to determine and confirm work schedule and respective responsibilities
- 1.4 Hazards are identified, workplace safety and environmental risks are assessed, and control measures are prioritised, implemented and monitored in accordance with workplace procedures
- 1.5 Scope of responsibility under the relevant job requirements, including all work permits and/or relevant notifications, is determined and confirmed to access the services and perform work in accordance with job requirements and workplace procedures
- 1.6 Equipment, tools and personal protective equipment (PPE) needed to carry out work activities are identified, obtained and checked for correct operation and safety in accordance with workplace procedures and manufacturer instructions
- 2 Monitor and control odourisation of gas
- **2.1** Workplace safety and environmental risk control measures, schedule of work and workplace procedures for carrying out work are followed
- 2.2 Appropriate materials, tools and equipment are selected and used safely in accordance with manufacturer instructions and workplace procedures
- 2.3 Work is completed within agreed timeframe and to industry standards in accordance with job requirements and workplace procedures
- 2.4 Hazardous activities are conducted safely in accordance with regulatory requirements and workplace procedures
- 2.5 Alarms, codes, and hazard warnings are correctly recognised, and the correct response strategy is selected and applied in accordance with workplace procedures
- 2.6 Faults and operational conditions of the components are identified, repaired or replaced, and reported in accordance with organisational job requirements

Approved Page 3 of 5

- 2.7 Odourant is handled and transported in accordance with regulatory requirements and workplace procedures, and potential hazards and safety risks monitored and control measures implemented
- 2.8 Odourant spill response and waste management emergency shutdown procedures are applied in the event of an odourant spill in the workplace

Unplanned events are referred to the relevant person/s for directions in accordance with workplace procedures

# 3 Complete work and relevant documentation

- **3.1** Workplace safety risk control measures for work completion are followed
- 3.2 Quality and safety checks of the work are conducted in accordance with job requirements, workplace procedures and community and industry standards
- **3.3** Worksite is cleaned, reinstated and made safe in accordance with workplace procedures
- 3.4 Tools, equipment and any surplus resources/materials are cleaned, checked and securely stored in accordance with workplace procedures
- 3.5 Incidents are reported and followed up as required in accordance with workplace procedures
- **3.6** Relevant person/s is notified of work completion in accordance with workplace procedures
- 3.7 Work completion documentation is completed accurately and provided to relevant person/s in accordance with workplace procedures

#### **Foundation Skills**

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

# **Range of Conditions**

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the UEG Gas Industry Training Package Companion

Approved Page 4 of 5

Volume Implementation Guide.

# **Unit Mapping Information**

This unit replaces and is equivalent to UEGNSG135 Monitor and control gas odourisation.
