UEGNSG123 Manage financial resources in a gas industry facility

Release: 1

UEGNSG123 Manage financial resources in a gas industry facility

Modification History

Release 1: This is the first release of this unit of competency in the UEG Gas Industry Training Package.

Application

This unit involves the skills and knowledge required to manage financial resources to achieve organisational and operational objectives in a gas facility. This unit refers to budget formats, operating budget, policy, financial reports and management information systems.

It includes developing a gas facility budget by allocating, authorising and monitoring expenditure; and utilising relevant financial management information systems and reviewing budget management constraints.

This unit applies to any safe work site where gas industry operations occur. It could also apply, where applicable, to other workplaces in the electricity supply industry (transmission and distribution and generation), the electrotechnology industry and the water industry, subject to work health and safety (WHS)/occupational health and safety (OHS) and duty of care requirements being met for the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Cross Discipline Units

Unit Sector

Gas Industry

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.
