

UEGNSG204 Coordinate and conduct gas distribution pipeline repair and modifications

Release: 1

UEGNSG204 Coordinate and conduct gas distribution pipeline repair and modifications

Modification History

Release 1: This is the first release of this unit of competency in the UEG Gas Industry Training Package.

Application

This unit involves the skills and knowledge required to prepare, coordinate and conduct gas distribution pipeline repair and modifications.

It includes on-the-job inspecting, testing, identifying, recommission the gas distribution pipeline, notifying relevant person/s of work completion, and completing documentation and reports in accordance with relevant industry standards and workplace procedures.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Gas Distribution

Unit Sector

Gas Industry

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Prepare for the coordination of gas distribution pipeline repairs and modifications

1.1 Work schedule/s, drawings, plans, job requirements and material lists are obtained, analysed and confirmed, as required, by site inspection and identified repair/modification communicated to relevant person/s in accordance with workplace procedures

Approved Page 2 of 5

- 1.2 Plans, specifications and other relevant information and workplace procedures for the work are obtained for all work sites and communicated to all relevant person/s in accordance with workplace procedures
