# UEPOPS125 Perform tool store duties

## Modification History

Release 1. This is the first release of this unit of competency in the UEP Electricity Supply Industry – Generation Sector Training Package Release 2.0.

## Application

This unit involves the skills and knowledge required to perform operational processes in the storage of tools and consumable items that are used in a power generation facility.

Tool store operations revolve around monitoring and controlling the flow of tools and consumable items into and out of a power generation facility. It includes oversight of tool store operations; maintaining inventory; receiving, storing and issuing tools, materials, equipment and other items; updating records and compiling store reports.

Competency in this unit requires the ability to plan and prepare for tool store duties, issue and maintain tools and associated equipment, and complete tool store work. Individuals will, in general, work as an operator, in a power generation facility.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
