# **UEPSS00003 High Voltage Operation – H.V. Switching**

**Release 1**

## **UEPSS00003 High Voltage Operation – H.V. Switching**

### **Modification History**

Not applicable.

### **Description**

This skill set deals with the skills and knowledge required to undertake the local operation of high voltage circuit breaking devices and performance of H.V. switching to a given switching program.

### **Pathways Information**

The units of competency in this skill set will contribute to the completion of relevant Certificate III, Certificate IV and Diploma qualifications from the UEP12 Electricity Supply Industry - Generation Sector Training Package. Please consult the packaging rules of the relevant qualification for further advice.

### **Licensing/Regulatory Information**

The skills and knowledge described in this Skill Set do not require a licence to practise in the workplace. However, practice in this unit is subject to regulations directly related to Occupational Health and Safety and where applicable contracts of training such as apprenticeships and the like

### **Skill Set Requirements**

UEPOPS349B Operate Local H.V. switchgear

UEPOPS456A Perform switching to a switching program

### **Target Group**

It is essential that anyone undertaking this skill set must already hold:  
Certificate III in Electrical Fitting (UEE33011) or Certificate III in Electrical Fitting (UEE33011) or equivalent.

## **Suggested words for Statement of Attainment**

This Skill Set from the UEP12 Electricity Supply Industry - Generation Sector Training Package meets the industry requirements for High Voltage Operation – H.V. Switching

## **Custom Content Section**

Not applicable.
