Introduction

Who is this guide for?

The MST Textiles, Clothing and Footwear Companion Volume Implementation Guide assists state and territory training authorities (STAs), regulators, assessors, trainers, registered training organisations (RTOs) and enterprises in delivering training based on the units of competency and qualifications in the MST Textiles, Clothing and Footwear Training Package.

It has been developed to assist RTOs in meeting the requirements of the *Standards for Registered Training Organisations (RTOs) 2015*.

Structure of this guide

This guide has three main parts.

1. Overview information, which includes summary information about modification history, training package content and key work and training requirements.
2. Implementation information to assist RTOs in implementing the qualifications, skill set and units of competency for training and assessment purposes.
3. Links.

Overview information

Version control

Version	Release	Status	Release Date
5.1	5.0	Current	Unit Mapping corrected; • MSTAT5006 Equivalent • MSTAT6005 Equivalent • MSTGN4022 Not Equivalent 21 March 2023

1.0	1.0	Replaced	4 July 2016

Modification history

Summary of changes from MST Release 4.2 to Release 5.0

Release 5.0 of the MST Textiles, Clothing and Footwear Training Package incorporated a revision of 14 qualifications and 236 units of competency, which resulted in:

- Seven revised qualifications
- One new unit of competency
- 117 revised units of competency (45 in Stage 1 and 72 in Stage 2)
- 66 deleted units of competency
- Five new skill sets.

The following components have also been updated due to flow on impacts of review work for Release 5.0 and changes in other Training Packages:

- Three Laundry and Dry Cleaning qualifications
- Seven skill sets.

For full details see mapping of [qualification](#), [units](#) and [skill set](#) changes from MST Release 4.2 to Release 5.0.

Summary of changes from MST Release 4.1 to Release 4.2

Release 4.2 of the MST Textiles, Clothing and Footwear Training Package reinstated 1 unit:

- MSTLG3003 Sew leather by hand.

Unit has been included in MST30519 Certificate III in Leather Production Group A electives. This unit was deleted as part of changes made in Release 4.0 in response to Skills Ministers' objectives. Evidence of usage supported its reinstatement.

For full details see mapping of [qualification](#) and [unit](#) changes from MST Release 4.1 to Release 4.2.

Summary of changes from MST Release 4.0 to Release 4.1

Release 4.1 of the MST Textiles, Clothing and Footwear Training Package removed low use units from the training package as determined at the December 2020 AISC meeting in response to Skills Ministers' objectives.

- 36 deleted units of competency
- Update of four qualifications to remove deleted units from elective banks.

For full details see mapping of [qualification](#) and [units](#) changes from MST Release 4.0 to Release 4.1.

Summary of changes from MST Release 3.0 to Release 4.0

Release 4.0 of the MST Textiles, Clothing and Footwear Training Package incorporated an update to training products relating to industrial sewing:

- One new skill set
- Two revised units of competency.

For full details see mapping of [qualification](#), [units](#) and [skill set](#) changes from MST Release 3.0 to Release 4.0.

Summary of changes from MST Release 2.1 to Release 3.0

Release 3.0 of the MST Textiles, Clothing and Footwear Training Package incorporated an update to training products relating to laundry and dry cleaning operations:

- Three revised qualifications
- One deleted qualification
- 20 qualifications with minor changes to codes and/or titles of elective units (included as Release 2 of individual qualifications):
 - MST20116 Certificate II in TCF Production Support (Release 2)
 - MST20216 Certificate II in TCF Production Operations (Release 2)
 - MST20319 Certificate II in Leather Production (Release 3)
 - MST20519 Certificate II in TCF Services and Repair (Release 2)
 - MST20616 Certificate II in Applied Fashion Design and Technology (Release 2)
 - MST30119 Certificate III in Clothing and Textile Production (Release 3)
 - MST30216 Certificate III in Manufactured Textile Products (Release 2)
 - MST30316 Certificate III in Millinery (Release 2)
 - MST30416 Certificate III in Footwear (Release 2)
 - MST30519 Certificate III in Leather Production (Release 3)
 - MST30819 Certificate III in Applied Fashion Design and Technology (Release 2)
 - MST40119 Certificate IV in Textile Design, Development and Production (Release 2)
 - MST40219 Certificate IV in Clothing Production (Release 2)
 - MST40316 Certificate IV in Custom-Made Footwear (Release 2)
 - MST40416 Certificate IV in Millinery (Release 2)
 - MST40519 Certificate IV in Applied Fashion and Merchandising (Release 2)
 - MST50119 Diploma of Applied Fashion Design and Merchandising (Release 2)
 - MST50219 Diploma of Textile Design and Development (Release 2)
 - MST60119 Advanced Diploma of Applied Fashion Design and Merchandising (Release 2)
 - MST60219 Advanced Diploma of Textile Design and Development (Release 2).
 - MSTGN2014 Operate computing technology in a TCF workplace (Release 2).
- 42 revised units of competency
- Two new units of competency
- One unit of competency with a minor change
- One deleted unit
- 12 new skill sets.

Release 3.0 of the MST Textiles, Clothing and Footwear Training Package also acknowledges some updates to the LMT07 Textiles, Clothing and Footwear Training Package:

- LMT20407 Certificate II in Cotton Ginning – will be superseded by Manufacturing and Engineering Training Package, Release 3.0
- LMT30307 Certificate III in Cotton Ginning – will be superseded by Manufacturing and Engineering Training Package, Release 3.0
- LMT31909 Certificate III in Engineering - TCF Mechanic – will be superseded by Manufacturing and Engineering Training Package, Release 3.0
- LMT40207 Certificate IV in Cotton Ginning – will be superseded by Manufacturing and Engineering Training Package, Release 3.0.

For full details see mapping of [qualification](#), [units](#) and [skill set](#) changes from MST Release 2.1 to Release 3.0.

Summary of changes from MST Release 2.0 to Release 2.1

Release 2.1 of the MST Textiles, Clothing and Footwear Training Package an update to training product relating to **minor** changes to 'buying' skills.

- One revised qualification.

For full details see mapping of [qualification](#) changes from MST Release 2.0 to Release 2.1.

Summary of changes from MST Release 1.1 to Release 2.0

Release 2.0 of the MST Textiles, Clothing and Footwear Training Package incorporated an update to training products relating to 'buying' skills.

- Two revised qualifications
- Eight updated qualifications with new codes due to core unit/s being updated as part of the 'TCF Buying Skills project'
 - MST20519 Certificate II in TCF Services and Repair
 - MST30919 Certificate III in Dry Cleaning Operations
 - MST30819 Certificate III in Applied Fashion Design and Technology
 - MST40119 Certificate IV in Textile Design, Development and Production
 - MST40219 Certificate IV in Clothing Production
 - MST40519 Certificate IV in Applied Fashion Design and Merchandising
 - MST50219 Diploma of Textile Design and Development
 - MST60219 Advanced Diploma of Textile Design and Development
- 15 revised units of competency
- One new unit of competency
- Two new skills sets.

For full details see mapping of [qualification](#), [units](#) and [skill set](#) changes from MST Release 1.1 to Release 2.0.

Summary of changes to incorporate LMT07 components into MST Release 2.0

- Three updated qualifications
- 11 units incorporated from the now deleted LMT07 Textiles, Clothing and Footwear Training Package
- Seven deleted units of competency.

Note: The following LMT qualifications and units were endorsed to be deleted as part of the MST Buying Skills Project Release 2.0. The deletions however will be released as part of the MST Laundry & Dry Cleaning project Release 3.0

- LMT11107 Certificate I in Textiles Clothing and Footwear
- LMT40907 Certificate IV in Supply and Fitting of Pre-manufactured Medical Grade Footwear
- LMT50207 Diploma of Medical Grade Footwear
- LMT60207 Advanced Diploma of Medical Grade Footwear

- LMTMF6001A Conduct comprehensive medical grade footwear assessments for clients with footwear-related medical conditions
- LMTMF6002A Design, evaluate and make patterns for medical grade custom-made footwear
- LMTMF6003A Research and evaluate medical grade footwear conditions, processes and products

For full details see mapping of [qualification](#), [units](#) and [skill set](#) changes from MST Release 1.1 to Release 2.0.

MST Release 1.1 – Industry Reference Committee upgrade

Typographical and data entry errors corrected in the following components:

Qualifications: MST20616, MST30116, MST30216, MST30316, MST30816, MST40216, MST40416, MST40516, MST50116, MST60116, MST60216.

Units of competency: MSTCL2006, MSTCL3002, MSTCL3003, MSTCL3004, MSTCL3006, MSTCL3007, MSTCL3010, MSTCL4001, MSTFD2001, MSTML3003.

Superseded imported unit replaced. All components remain equivalent.

Refer to *MST Companion Volume Implementation Guide, Release 1.1* for mapping [details](#).

MST Training Package components

Release 5.0 of the MST Textiles, Clothing and Footwear Training Package includes qualifications in the following areas:

- Apparel, Fashion and Textiles
- Leather and Leather Production
- Applied Fashion Design and Merchandising
- Manufactured Textile Products
- Millinery
- Footwear
- Dry Cleaning Operations
- Laundry Operations
- Textile Design and Production

List of MST qualifications

Code	Title
MST20319	Certificate II in Leather Production
MST20422	Certificate II in Laundry Operations
MST20722	Certificate II in Apparel, Fashion and Textiles
MST30222	Certificate III in Manufactured Textile Products
MST30316	Certificate III in Millinery
MST30416	Certificate III in Footwear
MST30519	Certificate III in Leather Production
MST30622	Certificate III in Laundry Operations
MST30922	Certificate III in Dry Cleaning Operations
MST31022	Certificate III in Apparel, Fashion and Textiles
MST40122	Certificate IV in Textile Design and Technology
MST40222	Certificate IV in Apparel and Fashion
MST40316	Certificate IV in Custom-Made Footwear
MST40416	Certificate IV in Millinery

MST50122	Diploma of Apparel, Fashion and Textiles
MST60122	Advanced Diploma of Apparel, Fashion and Textiles

List of MST skill sets

Code	Title
MSTSS00003	Introduction to Laundry Operations Skill Set
MSTSS00004	Introduction to Laundry or Dry Cleaning Industry Skill Set
MSTSS00005	Control Hygiene in Laundry Operations Skill Set
MSTSS00008	Use Technology in TCF Operations Skill Set
MSTSS00010	Supervise Work TCF Operations Skill Set
MSTSS00011	Ironer Safety Skill Set
MSTSS00014	Manage Technology in TCF Operations Skill Set
MSTSS00015	Industrial Sewing Skill Set
MSTSS00016	Clothing alterations and repairs Skill Set
MSTSS00017	Sample machining Skill Set
MSTSS00018	Advanced Garment Alterations and Repairs Skill set
MSTSS00019	Sewing and Finishing Skill set
MSTSS00020	Advanced Garment Production Skill set
MSTSS00021	Textiles, Clothing and Footwear Buying Skill Set
MSTSS00022	Textiles, Clothing and Footwear Sourcing for Production Skill Set
MSTSS00023	Sustainable Practices in Laundry Operations Skill Set
MSTSS00024	Sustainable Practices in Dry Cleaning Operations Skill Set
MSTSS00025	Spotting Skill Set
MSTSS00026	Customer service in Laundry or Dry Cleaning Operations Skill Set
MSTSS00027	Dispose of Waste Products in TCF Operations

List of MST units of competency (including prerequisites)

Note: The following list is provided for information. Users must rely on unit content published on training.gov.au.

Unit coding

All unit codes begin with MST, followed by the sector code, followed by an AQF identifier (linked to the complexity of the skills and knowledge covered), followed by a unique unit code of three numbers. For example, the code MSTGN2014 is a unit coded for the 'General' sector, first packaged in an AQF 2 level qualification and number 014 in the sequence for similar units.

The table below indicates the industry sector codes for MST units of competency:

Sector code	Industry sector
AT	Apparel and Textile Production
CL	Clothing Production
DC	Dry Cleaning and Laundry Operations
FD	Fashion Design and Technology
FP	Footwear Production
FR	Footwear Repair
GN	Generic
LG	Leather Production
LA	Laundry Operations
ML	Millinery
TF	Textile Fabrication
TX	Textile Production

Unit code	Unit title	Prerequisites
MSTAT2001	Prepare and communicate design concepts for simple textile products	
MSTAT2002	Draw basic sketches of textile products	
MSTAT2003	Modify patterns	
MSTAT2004	Lay up, mark and cut uncomplicated fabrics and lays	
MSTAT2005	Sew materials by machine	
MSTAT2006	Assemble simple textile products	
MSTAT2007	Use specialised machinery to support apparel and textile production	
MSTAT2008	Finish textile products	
MSTAT2009	Trim headwear	
MSTAT2010	Use basic textile production processes	
MSTAT2011	Use printing techniques to produce Indigenous textile designs	
MSTAT2012	Use dyeing techniques to produce Indigenous textile designs	
MSTAT2013	Work within an Indigenous cultural framework	
MSTAT3001	Produce technical drawings of garments	
MSTAT3002	Develop patterns using basic patternmaking principles	
MSTAT3003	Lay up and cut complicated fabrics and lays	
MSTAT3004	Make markers for complicated fabrics and lays	
MSTAT3005	Sew garments	
MSTAT3006	Assemble bras or swimwear	
MSTAT3007	Sew stretch knit garments	
MSTAT3008	Embellish textile products	
MSTAT3009	Set and produce digital embroidery	
MSTAT3010	Perform garment repairs and alterations	
MSTAT4001	Investigate influences on contemporary garment design and construction	
MSTAT4002	Contribute to development of preliminary garment design concepts	
MSTAT4003	Contribute to garment design refinement and production processes	
MSTAT4004	Develop product specifications for garment designs	MSTAT3001
MSTAT4005	Analyse influences on textile design and construction	
MSTAT4006	Contribute to the development of textile designs	
MSTAT4007	Construct stock size blocks for garments	
MSTAT4008	Create standard-size garment patterns from existing blocks	MSTAT3002
MSTAT4009	Grade 2D patterns	
MSTAT4010	Create garment patterns for individual sizes from blocks	MSTAT3002
MSTAT4011	Drape fabrics to make patterns	
MSTAT4012	Produce garments using advanced construction techniques	MSTAT3005
MSTAT4013	Measure, lay-up and cut bespoke garments	
MSTAT4014	Assemble and fit bespoke garments	
MSTAT4015	Determine and perform advanced garment repairs and alterations	
MSTAT4016	Cut and sew design prototypes	
MSTAT4017	Use garment sizing systems	
MSTAT4018	Use colourisation techniques on fabrics	
MSTAT4019	Produce knitted textile samples	
MSTAT4020	Prepare stencils and screens for textile printing	
MSTAT4021	Produce woven textile samples	
MSTAT4022	Produce screen printed textiles	
MSTAT4023	Interpret textile information and make production calculations	

Unit code	Unit title	Prerequisites
MSTAT4024	Select dyes and develop dye specifications and recipes	
MSTAT5001	Develop and present design concepts in response to a brief	
MSTAT5002	Progress garment design concepts to production	
MSTAT5003	Produce garment illustrations	
MSTAT5004	Manipulate fabrics to create new finishes	
MSTAT5005	Design bras and swimwear	
MSTAT5006	Design and produce knitted textile products	
MSTAT5007	Design and produce experimental textiles	
MSTAT5008	Design and produce printed textiles	
MSTAT5009	Develop and test patterns for bras and swimwear	MSTAT3002
MSTAT5010	Construct blocks for garments with advanced styling	MSTAT4007
MSTAT5011	Develop standard-size patterns from existing blocks for garments with advanced styling	MSTAT3002
MSTAT5012	Grade complex patterns	MSTAT4009
MSTAT5013	Analyse individual fit and make pattern alterations	MSTAT3002
MSTAT5014	Conduct digital patternmaking and grading	
MSTAT5015	Develop digital costing markers	
MSTAT5016	Analyse fit model	
MSTAT5017	Perform contour draping	MSTAT4011
MSTAT5018	Specify and plan advanced construction processes	
MSTAT6001	Manage development of garment design concepts	
MSTAT6002	Design a garment range	
MSTAT6003	Research and implement commercial production of garment designs	
MSTAT6004	Develop a textile product range	
MSTAT6005	Manage advanced patternmaking processes	
MSTAT6006	Implement specialised patternmaking technologies	
MSTAT6007	Perform advanced draping	
MSTCL2014	Access and use information resources for clothing production operations	
MSTCL2022	Provide hand sewing and finishing support	
MSTCL2024	Press work	
MSTCL3016	Press whole garments	MSTCL2024
MSTDC2010	Provide customer service in a dry cleaning or laundry enterprise	
MSTDC2011	Conduct safe handling of dry cleaning chemicals and solvents	
MSTDC2012	Identify pre-spotting requirements	
MSTDC2013	Operate dry cleaning machines	
MSTDC2014	Identify fabric and garment cleaning requirements	
MSTDC3003	Control wet cleaning operations	
MSTDC3004	Control dry cleaning finishing operations	
MSTDC3005	Perform spotting function in dry cleaning operations	
MSTDC3006	Dry clean garments with special treatment requirements	
MSTFD4006	Interact and network with fashion industry participants	
MSTFD4022	Source materials and resources for production of TCF designs	
MSTFD4023	Calculate cost estimates for TCF products	
MSTFD5023	Develop marketing plans for fashion products	
MSTFD5024	Evaluate fashion designs against set criteria	
MSTFD5025	Analyse influences on contemporary fashion designs	
MSTFD5026	Conduct fashion design purchasing	
MSTFD5027	Cost production of fashion and textile designs	
MSTFD5028	Develop merchandising plans for fashion products	
MSTFP1001	Embellish footwear	
MSTFP2001	Identify materials used in footwear production	

Unit code	Unit title	Prerequisites
MSTFP2002	Perform stuff cutting	
MSTFP2003	Cut printed materials by machine	
MSTFP2004	Cut non-printed leather by machine	
MSTFP2005	Operate machine to sew upper	
MSTFP2006	Machine upper according to product requirements	MSTFP2005
MSTFP2007	Last shoe by machine	
MSTFP2008	Perform moulding operations	
MSTFP2009	Perform footwear finishing operations	
MSTFP2010	Repair footwear product	
MSTFP2011	Perform table-based operations	
MSTFP3001	Cut leather by hand	
MSTFP3002	Hand last shoe	
MSTFP3003	Assemble shoe by hand	MSTFP2001
MSTFP3006	Apply foot anatomy principles to footwear production	
MSTFP4001	Develop design for custom made footwear	
MSTFP4002	Make patterns for custom-made footwear	
MSTFP4003	Prepare, cut and sew custom-made shoe components	
MSTFP4004	Assemble and finish custom-made shoe	
MSTFP4005	Fit custom-made footwear	
MSTFR2001	Assess and cost footwear repair job	
MSTFR2002	Supply and fit new heel block	
MSTFR2003	Attach non-slip sole or heel top piece	
MSTFR2004	Replace half leather sole	
MSTFR2005	Sew or patch by machine	
MSTFR3001	Replace full sole and heel	
MSTFR3003	Hand sew welt	
MSTGN2014	Operate computing technology in a TCF workplace	
MSTGN2015	Use RFID technology to track laundry items	
MSTGN2016	Use steaming and pressing equipment in TCF production	
MSTGN2017	Prepare, package and finish products for storage or dispatch	
MSTGN2018	Work in the TCF industry	
MSTGN2019	Work in a team environment	
MSTGN2020	Perform test or inspection to check product quality	
MSTGN2021	Select, transfer and remove materials and products	
MSTGN2022	Perform tasks to support production	
MSTGN2023	Identify and handle fabrics and textiles	
MSTGN2024	Perform minor maintenance	
MSTGN3003	Estimate and cost job	
MSTGN3008	Receive and sort articles for cleaning	
MSTGN3009	Coordinate work of team or section	
MSTGN3012	Work safely with chemicals in TCF operations	
MSTGN3013	Control production in a section of a TCF enterprise	
MSTGN3014	Organise and plan own work to achieve planned outcomes	
MSTGN3015	Supervise operations in a TCF enterprise	
MSTGN3016	Plan tasks to assist production operations	
MSTGN3017	Monitor and operate trade waste process	
MSTGN3018	Support sustainable practice in apparel and textile design and production	
MSTGN3019	Interact with others in an apparel and textile design and production environment	
MSTGN3020	Market textile products to local outlets	
MSTGN3021	Match fabrics to performance and handling requirements	
MSTGN3022	Investigate applications and performance outcomes of technical textiles	

Unit code	Unit title	Prerequisites
MSTGN3023	Estimate and cost jobs	
MSTGN3024	Establish own workspace and systems for home-based production	
MSTGN3025	Draw 3D designs	
MSTGN4010	Implement and monitor WHS and environmental systems in the workplace	
MSTGN4014	Produce and analyse spreadsheets	
MSTGN4015	Coordinate or set up machines for product change	
MSTGN4017	Participate in product engineering	
MSTGN4018	Analyse TCF merchandising and marketing principles	
MSTGN4019	Plan and implement production within a work area	
MSTGN4020	Contribute to the development of products or processes	
MSTGN4021	Manage technical processes	
MSTGN4022	Communicate design concepts	
MSTGN4023	Interact and network with TCF industry participants	
MSTGN4024	Quality assure textile products	
MSTGN4025	Use digital design tools	
MSTGN4026	Source textile materials and resources	
MSTGN4027	Perform routine textile testing and analyse results	
MSTGN4028	Research and use information about textiles	
MSTGN5005	Provide global operations support	
MSTGN5010	Coordinate quality assurance for TCF products and services	
MSTGN5012	Participate in production planning processes	
MSTGN5013	Prepare technical workplace documentation	
MSTGN5014	Research and plan for opportunities in the TCF market	
MSTGN5015	Work with local and international TCF supply chains	
MSTGN5016	Develop textile designs using digital software	
MSTGN5017	Assess impact of current and emerging industry innovations and practices	
MSTGN5018	Research and analyse textile materials	
MSTGN6007	Manage production processes	
MSTGN6008	Negotiate and manage contracts to produce finished design products	
MSTGN6009	Research and evaluate processes and products	
MSTGN6010	Manage TCF product development	
MSTGN6011	Map and establish TCF supply chain process	
MSTGN6012	Evaluate commercial viability of products	MSTFD5027
MSTLA2011	Apply infection control policies and procedures in laundry operations	
MSTLA2012	Operate washing machines	
MSTLA2014	Inspect, fold and pack theatre linen	
MSTLA3003	Control washing operations	MSTLA2012
MSTLA3004	Control linen rewash	MSTLA2012
MSTLA3005	Control laundry finishing operations	
MSTLA3006	Control conditioning and safe drying processes	
MSTLA3007	Control batch washer operations	
MSTLA3008	Determine linen rental requirements	
MSTLG2002	Sew leather by machine	
MSTLG2003	Perform table work	
MSTLG2004	Operate leather production machines	
MSTLG2005	Split leather pieces	
MSTLG2006	Identify materials used in leather goods production	
MSTLG2007	Skive leather pieces	
MSTLG2008	Determine characteristics of materials used in leather goods production	

Unit code	Unit title	Prerequisites
MSTLG3002	Cut leather by hand	
MSTLG3003	Sew leather by hand	
MSTLG3005	Grade leather	
MSTML1001	Make a simple headpiece	
MSTML2001	Identify materials used in millinery	
MSTML2002	Make flat patterns for millinery	
MSTML2003	Produce and attach millinery trims	
MSTML2004	Produce felt for millinery	
MSTML2005	Place and cut millinery patterns	
MSTML2006	Make millinery with flat pattern components	
MSTML2007	Block and shape millinery by hand	
MSTML2008	Assemble simple blocked millinery components	
MSTML2009	Apply millinery sewing and adhesion techniques	
MSTML3001	Make flat patterns from hat blocks	MSTML2002 MSTML2007
MSTML3002	Block and shape complex millinery	MSTML2007 MSTML3004
MSTML3003	Make millinery using patterns derived from hat block	MSTFD2006 MSTML2005 MSTML3001 MSTML2002 MSTML2007
MSTML3004	Identify performance and handling requirements of millinery materials	MSTML2001
MSTML3005	Assemble complex blocked millinery components	MSTML3002
MSTML4001	Undertake specific millinery construction techniques	
MSTML4002	Rejuvenate millinery	
MSTML4003	Present and display millinery	
MSTML4004	Manage millinery procurement and cost millinery products	
MSTML4005	Undertake initial millinery consultation, subsequent fittings and finishing	
MSTML4006	Sketch and prepare millinery fashion designs	
MSTML4007	Make millinery patterns	
MSTML4008	Undertake couture millinery	
MSTML4009	Modify millinery blocks to make new shapes	
MSTML4010	Make couture trims	MSTCL2016 MSTML3004
MSTTF2017	Use canvas and sail production tools	
MSTTF2018	Select and handle materials for manufactured textile products	
MSTTF2019	Cut and form metal	
MSTTF2020	Use adhesives	
MSTTF2021	Stitch by hand	
MSTTF2022	Weld plastic materials	
MSTTF3008	Establish client and site requirements for manufactured textile products	
MSTTF3009	Create drawings for manufactured textile products	
MSTTF3010	Product digital patterns for 2D manufactured textile products	
MSTTF3011	Apply lofting skills to sail making	
MSTTF3012	Cut and join sail panels	
MSTTF3013	Construct manufactured textile products	
MSTTF3014	Install manufactured textile products	
MSTTX2014	Perform industrial sewing on textile products	
MSTTX3004	Set up textile production machines for product change	
MSTTX3006	Ensure efficient operation of textile machines	

Unit code	Unit title	Prerequisites
MSTTX3007	Prepare dyes for textile production	
MSTTX3010	Monitor textile production processes	
MSTTX3011	Set up, adjust and monitor a machine for TCF production	
MSTTX3014	Set up, adjust and maintain industrial sewing machines	

Mapping of MST qualifications from Release 4.2 to Release 5.0

Key: E = Equivalent, N = Non-equivalent

MST Training Package Release 4.2		MST Training Package Release 5.0		Equiv. Status	Comments
Qual Code	Qual Title	Qual Code	Qual Title		
MST20116	Certificate II in TCF Production Support	MST20722	Certificate II in Apparel, Fashion and Textiles	N	Renamed qualification merges the existing MST20116 Certificate II in TCF Production Support, MST20216 Certificate II in Production operations, MST20519 Certificate II in TCF Services and Repair and MST20616 Certificate II in Applied Fashion Design and Technology. All outcomes are retained within a new broadly-based qualification. Overall number of units reduced by one from 13 to 12 to account for merging of units. Core units changed (both removed and added) to reflect industry needs at entry level across a broad range of sectors. Unused elective units are proposed for removal.
MST20216	Certificate II in TCF Production Operations				
MST20519	Certificate II in TCF Services and Repair				
MST20616	Certificate II in Applied Fashion Design and Technology				
MST20419	Certificate II in Laundry Operations	MST20422	Certificate II in Laundry Operations	E	Unit codes and titles updated.
MST30119	Certificate III in Clothing and Textile Production	MST31022	Certificate III in Apparel, Fashion and Textiles	N	Renamed qualification merges the existing MST30119 Certificate III in Clothing and Textile Production and MST30819 Certificate III in Applied Fashion Design and Technology which already

					specialisations removed. Unused digital embroidery and digital printing units removed. Small business electives added.
MST30919	Certificate III in Dry Cleaning Operations	MST30922	Certificate III in Dry Cleaning Operations	E	Unit codes and titles updated.
MST40119	Certificate IV in Textile Design, Development and Production	MST40122	Certificate IV in Textile Design and Technology	E	Retitled qualification which has been restructured to provide greater focus on 'textile fundamentals' that industry considers essential and which underpin work across different outcomes. Electives allow for outcomes in design or production. Overall number of units reduced by seven. Core units reduced to enable creation of Group A for textile fundamentals.
MST40219	Certificate IV in Clothing Production	MST40222	Certificate IV in Apparel and Fashion	N	Retitled qualification merges the existing MST40219 Certificate IV in Clothing Production and MST40519 Certificate IV in Applied Fashion Design and Merchandising which already shared a large number of units. New titling created to broaden scope and provide simplified wording. Overall number of units reduced by five to better reflect scope of requirements. Core units changed, including addition of technical drawing and industry-specific sustainability and quality units. Specialisations
MST40519	Certificate IV in Applied Fashion Design and Merchandising				

MST Training Package Release 4.2		MST Training Package Release 5.0		Equiv. Status	Comments
Qual Code	Qual Title	Qual Code	Qual Title		
					revised to reflect merging of qualifications.
MST50119	Diploma of Applied Fashion Design and Merchandising	MST50122	Diploma of Apparel, Fashion and Textiles	N	Retitled qualification provides simpler wording and reflects broader scope beyond fashion and more explicitly allows for textiles outcomes. Overall number of units reduced by ten to better reflect scope of requirements and reduce nesting of lower level content. Core units changed to replace some units from lower level qualifications with more complex units to better reflect alignment at Diploma level (sourcing, costing, innovation and digital design). Additional flexibility provided for choice of safety unit. Specialisation titles simplified.
MST50219	Diploma of Textile Design and Development				
MST60119	Advanced Diploma of Applied Fashion Design and Merchandising	MST60122	Advanced Diploma of Apparel, Fashion and Textiles	N	Retitled qualification provides simpler wording and reflects broader scope beyond fashion. Qualification completely re-developed as a stand-alone 'elective only' qualification with an entry requirement. Overall number of units reduced significantly to reflect this new approach (from 45 to 10).
MST60219	Advanced Diploma of Textile Design and Development				

No further qualifications were added, deleted or changed in the update from Release 4.2 to Release 5.0.

					Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed.
MSTFD2003	Apply dyeing techniques to produce Indigenous textile designs	MSTAT2012	Use dyeing techniques to produce Indigenous textile designs	N	Unit code, Title and Application changed. Title changed for simplicity. Prerequisite unit removed. Elements and Performance Criteria simplified with Element 1 and 2 combined. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed.
MSTFD2004	Work within an Indigenous cultural framework	MSTAT2013	Work within an Indigenous cultural framework	E	Unit code and Application changed. Elements and Performance Criteria simplified. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with duplication with Performance Criteria removed.
MSTFD2005	Identify design process for fashion designs	MSTAT2001	Prepare and communicate design concepts for simple textile products	N	Merges content from MSTFD2005 and MSTFD3003. Unit code, Title and Application changed. Title changed to reflect broader scope. Elements and Performance Criteria completely restructured. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence.

MST Training Package Release 4.2		MST Training Package Release 5.0		Equiv. Status	Comments
Unit Code	Unit Title	Unit Code	Unit Title		
					Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Other suggested replacements are CUADES201 Follow a design process and CUADES301 Explore the use of colour.
MSTFD2006	Use a sewing machine for fashion design	MSTAT2005	Sew materials by machine	N	Unit code, Title and Application changed. Merges duplicating content of MSTFD2006, MSTCL2021 and MSTCL2023. Title changed for broader application. Elements and Performance Criteria simplified with Elements 1 and 2 combined. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed
MSTFD3001	Market design product to local outlets	MSTGN3020	Market textile products to local outlets	E	Unit code, Title and Application changed. Title changed for broader application but outcomes remain unchanged. Elements and Performance Criteria simplified. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed.

		MSTLG3003	Sew leather by hand	E	Unit reinstated.

Mapping of MST units from Release 4.0 to Release 4.1

Thirty-six (36) units were deleted:

- MSTFP3004 Contribute to footwear production improvement processes
- MSTFP3005 Supervise footwear production operations
- MSTFR3002 Operate sole stitcher
- MSTFR3004 Re-cover footwear
- MSTFR3005 Dye footwear or leather product
- MSTFR3006 Undertake specialised footwear repair techniques

- MSTGN4012 Fabricate or machine tooling
- MSTHL2001 Undertake receipt, storage, handling and preservation of materials or products
- MSTHL2002 Perform felmongering processes
- MSTHL2003 Operate machines to prepare hides or skins for tanning
- MSTHL2004 Sort, grade or class hides, skins or leather
- MSTHL2005 Trim hides, skins or leather
- MSTHL2006 Use drum or vessel to prepare or tan hides or skins
- MSTHL2007 Operate machines to crust hides, skins or leather
- MSTHL2008 Use drum or vessel to crust hides, skins or leather
- MSTHL2009 Perform drying operations
- MSTHL2010 Finish hides, skins or leather
- MSTHL3001 Determine suitability of hide, skin and leather for leather goods
- MSTHL3002 Determine tanning requirements for hide, skin and leather
- MSTLG2001 Cut by machine
- MSTLG3003 Sew leather by hand
- MSTLG3004 Apply finishes to leather products
- MSTLG3006 Apply pattern specifications to saddlery products
- MSTLG3007 Assemble saddle components
- MSTMF4001 Select and adjust prefabricated footwear-related orthoses
- MSTMF4002 Conduct medical grade footwear assessments for clients with footwear-related medical conditions
- MSTMF4003 Modify medical grade footwear
- MSTMF4004 Select and adjust prefabricated medical grade footwear and accessories
- MSTMF4005 Select, produce and adjust casts for accommodative orthoses
- MSTMF4006 Fit medical grade footwear and orthoses that are not complex
- MSTMF4007 Produce accommodative orthoses
- MSTMF4008 Produce negative and positive casts for lasts and corrective orthoses
- MSTMF4009 Produce custom-made medical grade footwear
- MSTMF4010 Fit complex custom-made medical grade footwear and orthoses
- MSTMF4011 Produce corrective orthoses

Four qualifications were updated to remove deleted units from elective banks:

- MST20319 Cert II in Leather Production
- MST30416 Cert III in Footwear
- MST30519 Cert III in Leather Production
- MST40316 Cert IV in Custom-Made Footwear

Mapping of MST units from Release 3.0 to Release 4.0

List of imported units of competency and prerequisites

Note: There are other units that now need to be updated but these appear in quals outside the scope of Stage 1. Units identified are highlighted in yellow.

Unit code	Unit title	Prerequisites
AHCLSC321	Install metal structures and features	
AHCWRK512	Plan, implement and review a quality assurance program	
AURVTT004	Trim vehicle components	
AURVTT014	Fabricate and fit marine covers	
AURVTT020	Select and use leather in automotive and marine trimming	
AURVTT119	Fabricate and install automotive and marine frames, canopies and side curtains	
BSBCMM211	Apply communication skills	
BSBESB301	Investigate business opportunities	
BSBESB303	Organise finances for new business ventures	
BSBESB304	Determine resource requirements for new business ventures	
BSBESB402	Establish legal and risk management requirements of new business ventures	
BSBESB403	Plan finances for new business ventures	
BSBFIN501	Manage budgets and financial plans	
BSBLEG529	Apply legal principles in corporation law matters	
BSBMKG431	Assess marketing opportunities	
BSBMKG432	Research international markets	
BSBMKG433	Undertake marketing activities	
BSBMKG434	Promote products and services	
BSBMKG435	Analyse consumer behaviour	
BSBMKG543	Plan and interpret market research	
BSBMKG546	Develop social media engagement plans	
BSBMKG548	Forecast international market and business needs	
BSBMKG552	Design and develop marketing communication plans	
BSBMKG621	Develop organisational marketing strategy	
BSBMKG623	Develop marketing plans	
BSBMKG624	Manage market research	
BSBMKG625	Implement and manage international marketing programs	
BSBOPS304	Deliver and monitor a service to customers	
BSBOPS601	Develop and implement business plans	
BSBSTR601	Manage innovation and continuous improvement	
BSBSTR801	Lead innovative thinking and practice	

Unit code	Unit title	Prerequisites
BSBSUS511	Develop workplace policies and procedures for sustainability	
BSBSUS601	Lead corporate social responsibility	
BSBTEC501	Develop and implement an e-commerce strategy	
BSBWHS311	Assist with maintaining workplace safety	
BSBWHS411	Implement and monitor WHS policies, procedures and programs	
BSBWHS521	Ensure a safe workplace for a work area	
CPCCCM2002	Carry out hand excavation	CPCCWHS2001
CPCCCO2013	Carry out concreting to simple forms	CPCCWHS2001
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry	
CUAACD101	Use basic drawing techniques	
CUAACD311	Produce drawings to communicate ideas	
CUAACD312	Produce computer-aided drawings	
CUAACD411	Integrate colour theory and design processes	
CUACMP311	Implement copyright arrangements	
CUADES201	Follow a design process	
CUADES202	Evaluate the nature of design in a specific industry context	
CUADES301	Explore the use of colour	
CUADES302	Explore and apply the creative design process to 2D forms	
CUADES601	Design innovative products	
CUADIG517	Design digital simulations	
CUAPOS311	Edit video and audio content for social media	
CUAPPR513	Present a body of own creative work	
CUAPPR515	Establish and maintain safe creative practice	
CUAPPR613	Engage in the business of creative practice

SIRXOSM003	Use social media and online tools	SIRXOSM002
SIRXOSM006	Develop and manage social media and online strategies	
SIRXPDK001	Advise on products and services	
TLIX0020X	Monitor ethical supply chain practices	

Key work and training requirements

The Australian Textiles, Clothing and Footwear (TCF) industry has undergone significant change in recent years as enterprises have navigated reduced tariff protection, increased competition from low cost imports, and a significant movement of production jobs to overseas manufacturers. The predominance of niche and small to medium enterprise businesses, as well as declining employment trends for many sectors, means that the overall training demand across TCF has decreased by approximately 20% from 2014 to 2018.

Enterprises that target niche markets are generally the higher performers and report growth. To ensure the industry is able to grow this market, successfully maintain and develop elements of the local supply chain, and replace its ageing workforce, ongoing relevant training is essential.

The MST Textiles, Clothing and Footwear Training Package addresses the training and recognition needs of workers, designers, technicians, supervisors and sales staff working in a wide range of enterprises and industry sectors, including:

- automotive
- business and merchandising
- buying
- clothing production
- design and product development
- digital embroidery
- dry cleaning
- fashion design
- footwear production
- footwear repair
- garment alterations and repairs
- laundry
- leather fabrication
- leather production
- marine
- materials sampling and testing
- merchandising
- millinery
- textile fabrication
- textile production.

The TCF sector has proved to be resilient, hardworking and determined to survive. This is an industry that has been under intense pressure for many years. Despite the challenges outlined above, and the resulting skill shortages, employment in the TCF sector of the manufacturing industry increased from 31,700 employees in 2016–2017 to 38,800 in 2017–2018.

To survive into the future, TCF businesses need to determine their points of difference and forge a clear position in local and global markets. They must embrace world-class management practices and produce high value, high quality, customised textile and apparel solutions. Enterprises are increasingly looking to manufacturing technologies to improve their competitiveness. New machines such as 3-D body scanners, whole garment knitting machines, 3-D printers and laser cutters are becoming more widely used to give fashion and textiles operations more flexibility in producing innovative designs and customised products.

Development and use of new textiles and fibres, including blends and composites, and the use of recycled materials, are providing different properties for fabrics and creating new possibilities for 'smart' and high-performance textile products that support a range of industries. These include filters and membranes in food production; hail and bird protection textiles for agribusinesses; industrial textiles; personal protective equipment (PPE); composite fibres, such as carbon, graphene and basalt in the mining equipment, technology and services (METS) sector; 'smart' textiles and additive manufacturing; and human tissue and microbial textile solutions that are increasingly being used in medical technologies.

Industry stakeholders report changes to business models that include a greater focus on innovation and developing export markets, product and investment diversification and development of an 'Australian brand' identity.

Skills in demand include use of digital and electronic technology, technical and construction skills, textile mechanics, computer-aided design (CAD) patternmaking, supply chain management, soft skills and STEM skills. These skills are in short supply in Australia and some enterprises say they have had to import workers to meet this need. Logistics and distribution skills are also priorities. Other priorities include skills in laboratory testing, compliance, product safety, small business management, finance, marketing, leadership and people management, as well as knowledge of fibre and textile material properties.

Enterprises are wanting to up-skill, re-skill and address skill shortages, and are keen to build skills in both technical and operational roles.

Cross-industry and international collaboration has become a higher priority for this sector in order to maximise its impact and strongly represent its strengths to government, and to local and overseas customers from a range of sectors.

A word about fashion and design

The publication of MST Release 5.0 marks the beginning of an industry-driven shift to broaden the focus of training in the TCF sectors from the existing focus on fashion and design.

The twin words of 'fashion' and 'design' are highly marketable and very appealing to potential students and industry entrants. However, industry has indicated that workplace opportunities are much broader and that the focus on fashion and design is not providing people with skills that industry needs or a realistic appreciation of the industry. At the entry level in particular, industry sees quite a limited place for design skills. More broadly, skills related to other types of apparel and non-wearable items, such as work clothing are considered valuable.

Release 5.0 responds to this industry feedback with retitled qualifications (Apparel, Fashion and Textiles) and a suite of broader units that can be applied beyond fashion and clothing, coded AT for Apparel and Textile Production. There are fewer MST-specific design units at the entry level, while ensuring that design content can still be addressed when needed through the use of cross-industry design units from the CUA Creative Industries Training Package. This approach is also reflected in qualifications at Certificate IV and above. While separate qualifications have been maintained for Apparel and Fashion on the one hand and Textile Design and Technology on the other at Certificate IV level, both Diploma and Advanced Diploma qualifications are not titled Apparel, Fashion and Textiles. Full details are provided in relevant mapping documents.

Credit arrangements

No national credit arrangements exist for any qualification in MST Release 5.0.

Regulation and licensing requirements

While no specific licensing or certification requirements apply to individual units at the time of publication, some MST units are governed by relevant legislation, regulations and/or external accreditation requirements. RTOs are advised to check local requirements that may apply to each qualification and unit of competency.

Implementation information

RTOs will need to implement a comprehensive training and assessment strategy for each MST Textiles, Clothing and Footwear Training Package program that they deliver.

This implementation information is provided to assist RTOs to develop those training and assessment strategies to meet industry and learner needs. It includes information on:

- choosing the appropriate qualification
- choosing electives
- supporting learners
- delivering the training
- assessing learners.

Choosing the appropriate qualification

This section will assist Training Package users to develop their training and assessment strategies, customise the program to meet industry sector and learner needs, identify the most suitable qualification for a learner and apply the volume of learning and amount of training required to comply with the Australian Qualifications Framework (AQF).

This section provides information about:

- career pathways
- entry requirements and pathways into and out of qualifications
- qualifications and the AQF
- qualifications with specialisations.

Multiple qualifications may be used as the basis for a traineeship and/or apprenticeship.

Pathways advice

The MST Textiles, Clothing and Footwear Training Package qualifications have been developed to simultaneously support career pathways and articulation up the AQF levels.

The qualifications in the MST Textiles, Clothing and Footwear Training Package have been designed to support direct entry into qualifications. The qualifications support articulation into the next qualification and into higher education Degree programs.

Pathways into the qualifications

There are no entry requirements for MST qualifications. Skill sets also provide alternative pathways into qualifications.

Pathways from the qualification

Further training pathways from MST qualifications are indicated in the Qualifications Pathways Chart. The following qualifications career pathways chart shows the progression from Certificate II up to Advanced Diploma qualifications in the TCF sector.

MST Textiles, Clothing and Footwear Training Package – Qualifications Pathway Chart

MST qualifications and the AQF

RTOs must meet the requirements of the AQF. They must also ensure that learners are enrolled in appropriate qualifications. This section provides information for each qualification about the occupational outcomes, gives examples of the work at that AQF level and gives the AQF qualification type learning outcomes descriptor.

The AQF provides the **volume of learning** allocated to a qualification. This includes all teaching, learning and assessment activities that are required to be undertaken by the typical student to achieve the learning outcomes. These activities may include guided learning (classes, lectures, tutorials, online or self-paced study), individual study, research, learning activities in the workplace, and assessment activities.

The **amount of training** provided by an RTO is part of the overall volume of learning and relates primarily to formal activities (including classes and other activities, as well as workplace learning). RTOs are required to comply with the AQF in applying the volume of learning to training programs and must therefore develop and implement strategies for training and assessment that are consistent with the AQF.

When developing a training and assessment strategy RTOs must take into account the need to allow learners to reflect on and absorb the knowledge, to practise the skills in different contexts, and to learn to apply the skills and knowledge in the varied environments that the 'real world' offers before being assessed.

Certificate II AQF qualification descriptor

Purpose

The Certificate II qualifies individuals to undertake mainly routine work and as a pathway to further learning.

Knowledge

Graduates of a Certificate II will have basic factual, technical and procedural knowledge in a defined area of work and learning.

Skills

Graduates of a Certificate II will have:

- cognitive skills to access, record and act on a defined range of information from a range of sources
- cognitive and communication skills to apply and communicate known solutions to a limited range of predictable problems
- technical skills to use a limited range of equipment to complete tasks involving known routines and procedures with a limited range of options.

Application

Graduates of a Certificate II will demonstrate the application of knowledge and skills with some accountability for the quality of own outcomes and some responsibility for own outputs in and skills work and learning. Work involves limited autonomy and judgement in the completion of own defined and routine tasks in known and stable contexts and in collaboration with others in a team environment.

Volume of learning

The volume of learning of a Certificate II is typically 0.5-1 year. This equates to 600-1200 hours.

MST20319 Certificate II in Leather Production

This qualification is intended for those who require skills and knowledge for an enterprise involved in the production of leather goods.

Work relates to a limited range of technical and operational tasks within a production environment. Work is generally supervised and may include some multi-skilled roles.

MST20422 Certificate II in Laundry Operations

This qualification describes the skills and knowledge to conduct operational and support functions within a laundry enterprise. Work outcomes covered by this qualification typically involve performing a limited range of tasks with known routines and procedures and some accountability for the quality of outcomes. Some multi-skilled roles can be accommodated in this qualification and work is generally supervised.

MST20722 Certificate II in Apparel, Fashion and Textiles

This qualification reflects the skills used by entry-level workers in the textile, clothing and footwear industry who perform basic and defined work tasks involving known routines and procedures under supervision. This qualification is typically used to develop basic employment related skills and knowledge including preparatory access and participation skills and/or specific workplace skills that relate to an individual sector.

Specialisations and/or elective selections allow for the tailoring of this qualification to achieve basic skill outcomes in different areas of apparel, fashion and textile work.

Certificate III AQF qualification descriptor

Purpose

The Certificate III qualifies individuals who apply a broad range of knowledge and skills in varied contexts to undertake skilled work and as a pathway for further learning.

Knowledge

Graduates of a Certificate III will have factual, technical, procedural and theoretical knowledge in an area of work and learning.

Skills

Graduates of a Certificate III will have:

- cognitive, technical and communication skills to interpret and act on available information
- cognitive and communication skills to apply and communicate known solutions to a variety of predictable problems and to deal with unforeseen contingencies using known solutions
- technical and communication skills to provide technical information to a variety of specialist and non-specialist audiences
- technical skills to undertake routine and some non-routine tasks in a range of skilled operations.

Application

Graduates of a Certificate III will demonstrate the application of knowledge and skills with discretion and judgement in the selection of equipment, services or contingency measures and skills to adapt and transfer skills and knowledge within known routines, methods, procedures and time constraints.

Work is in the context of taking responsibility for own outputs in work and learning, including participation in teams and taking limited responsibility for the output of others within established parameters.

Volume of learning

The volume of learning of a Certificate III is typically 1-2 years which equates to 1200-2400 hours.

MST30222 Certificate III in Manufactured Textile Products

This qualification reflects the role of individuals working at trade level in the design, development, production and supply of manufactured textile products such as yacht sails, shades, shade sails, PVC and canvas products. Often these products are designed and produced to meet specific customer needs. These individuals use specialised technical and operational knowledge and skills and may be involved in leading others.

MST30316 Certificate III in Millinery

This qualification is intended for those who apply a range of technical skills within a millinery production environment.

MST30416 Certificate III in Footwear

This qualification is intended for those who perform multi-skilled operations within a work environment that produces or repairs footwear, where an in-depth knowledge of footwear materials and production or repair processes is required.

Suitable applications include manufacture or repair of footwear products.

Elective units of competency should be chosen to meet the specialist skill needs of the area of application.

MST30519 Certificate III in Leather Production

This qualification provides the skills and knowledge required to perform supervision roles, specialised tasks or multi-skilled roles within a leather production environment.

Work relates to specialised technical, operational and supervisory roles in a hide, skin and leather processing enterprise or an enterprise involved in the production of leather goods.

MST30622 Certificate III in Laundry Operations

This qualification is intended for those who perform specialised technical tasks or multi-skilled roles within a commercial laundry environment. It includes some supervision of staff.

Work is usually performed in a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in the use of equipment or application of contingency measures and within known time constraints.

MST30922 Certificate III in Dry Cleaning Operations

This qualification is intended for those who perform specialised technical tasks or multi-skilled roles within a dry cleaning environment. It includes some supervision of staff.

Work is usually performed in a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in the provision of services or contingency measures and within known time constraints.

MST31022 Certificate III in Apparel, Fashion and Textiles

This qualification reflects the role of individuals who work in production-related roles in the textile, clothing and footwear industry. Individuals may be self-employed or work in small or large organisations. They use specialised knowledge of apparel or textile production processes and apply discretion, judgement and problem-solving skills to achieve work outcomes and take responsibility for their own work. Individuals may have some limited responsibility for the work of others.

Certificate IV AQF qualification descriptor

Purpose

The Certificate IV qualifies individuals who apply a broad range of specialised knowledge and skills in varied contexts to undertake skilled work and as a pathway for further learning.

Knowledge

Graduates of a Certificate IV will have broad factual, technical and theoretical knowledge in a specialised field of work and learning.

Skills

Graduates of a Certificate IV will have:

- cognitive skills to identify, analyse, compare and act on information from a range of sources
- cognitive, technical and communication skills to apply and communicate technical solutions of a non-routine or contingency nature to a defined range of predictable and unpredictable problems
- specialist technical skills to complete routine and non-routine tasks and functions
- communication skills to guide activities and provide technical advice in the area of work and learning.

Application

Graduates of a Certificate IV will demonstrate the application of knowledge and skills to specialised tasks or functions in known or changing contexts with responsibility for own functions and outputs, and may have limited responsibility for organisation and quantity and quality of the output of others within limited parameters.

Volume of learning

The volume of learning of a Certificate IV is typically 0.5-2 years. This equates to 600-2400 hours.

MST40122 Certificate IV in Textile Design and Technology

This qualification reflects the role of individuals working in diverse areas of textile design, development and production. They may be involved in technical production or be small-scale designer-makers of textile products. People working in these roles use a broad factual, technical and theoretical knowledge of textile materials and processes to underpin sustainable and efficient work practices.

MST40222 Certificate IV in Apparel and Fashion

This qualification reflects the role of individuals working as design assistants, merchandising assistants and specialist production technicians, such as patternmakers and sewing machinists. These individuals support design and production in the apparel and fashion industry. The qualification includes business and design outcomes which build on technical production skills and knowledge to provide a basis for career progression to design, construction and merchandising management roles.

MST40316 Certificate IV in Custom-Made Footwear

This qualification provides skills and knowledge to perform technical and production work in the design and development of custom-made footwear or footwear that involves small production quantities.

MST40416 Certificate IV in Millinery

This qualification provides the skills and knowledge required to perform millinery design and construction roles. Work typically involves one-off or small run production within a small enterprise or self-employed operation.

*Diploma AQF qualification descriptor***Purpose**

The Diploma qualifies individuals who apply integrated technical and theoretical concepts in a broad range of contexts to undertake advanced skilled or paraprofessional work and as a pathway for further learning.

Knowledge

Graduates of a Diploma will have technical and theoretical knowledge and concepts, with depth in some areas within a field of work and learning.

Skills

Graduates of a Diploma will have:

- cognitive and communication skills to identify, analyse, synthesise and act on information from a range of sources
- cognitive, technical and communication skills to analyse, plan, design and evaluate approaches to unpredictable problems and/or management requirements
- specialist technical and creative skills to express ideas and perspectives
- communication skills to transfer knowledge and specialised skills to others and demonstrate understanding of knowledge.

Application

Graduates of a Diploma will demonstrate the application of knowledge with depth in some areas of specialisation, in known or changing contexts and skills to transfer and apply theoretical concepts and/or technical and/or creative skills in a range of situations with personal responsibility and autonomy in performing complex technical operations and for quantity and quality. Work involves initiative and judgement to organise the work of self and others and plan, coordinate and evaluate the work of teams within broad but generally well-defined parameters.

Volume of learning

The volume of learning for a Diploma is typically 1-2 years which equates to 1200-2400 hours.

MST50122 Diploma of Apparel, Fashion and Textiles

This qualification reflects the role of individuals who use cognitive, technical and communication skills to analyse, plan, design and evaluate production and business management in the apparel, fashion and textiles industry. They use technical knowledge and initiative and judgment in their work. Job roles in established organisations may include assistant designers, assistant product developers, patternmakers, and production supervisors. In the business area, roles may include assistant positions in marketing, public relations, buying and visual merchandising. Individuals may also be self-employed as designers.

This qualification allows for a generalist qualification, or specialisation in the fields of 'Design and product Development' or 'Business'.

Advanced Diploma AQF qualification descriptor

Purpose

The Advanced Diploma qualifies individuals who apply specialised knowledge in a range of contexts to undertake advanced skilled or paraprofessional work and as a pathway for further learning.

Knowledge

Graduates of an Advanced Diploma will have specialised and integrated technical and theoretical knowledge with depth within one or more fields of work and learning.

Skills

Graduates of an Advanced Diploma will have:

- cognitive and communication skills to identify, analyse, synthesise and act on information from a range of sources
- cognitive and communication skills to transfer knowledge and skills to others and to demonstrate understanding of specialised knowledge with depth in some areas
- cognitive and communication skills to formulate responses to complex problems
- wide-ranging specialised technical, creative or conceptual skills to express ideas and perspectives.

Application

Graduates of an Advanced Diploma will demonstrate the application of knowledge and skills with depth in areas of specialisation, in contexts subject to change using initiative and judgment in planning, design, technical or management functions with some direction. Work requires adapting a range of fundamental principles and complex techniques to known and unknown situations across a broad range of technical or management functions with accountability for personal outputs and personal and team outcomes within broad parameters.

Volume of learning

The volume of learning of an Advanced Diploma is typically 1.5-2 years which equates to 1800 to 2400 hours.

MST60122 Advanced Diploma of Apparel, Fashion and Textiles

This qualification reflects the role of individuals who use wide-ranging specialised technical, creative or conceptual skills to express ideas and perspectives, with initiative and judgment in planning, design, technical or management functions in the apparel industry. Job roles in established organisations may include designers, product developers, senior patternmakers and production managers. In the business area, roles may include assistant positions in marketing, buying and visual merchandising. Individuals may also be self-employed as designers.

Entry to this qualification is open to individuals who:

- hold MST50122 Diploma of Apparel, Fashion and Textiles

OR

- can provide documented evidence of previous work experience and/or qualifications in apparel, fashion or textile design or production at a level which has involved the application of specialist creative, technical and/or management skills and knowledge.

Choosing electives

All qualifications are able to be customised since particular combinations of elective units can be selected to suit individual learner needs and the industry sector. The following information will assist in the selection of electives.

MST qualifications with specialisations

Many MST Textiles, Clothing and Footwear Training Package qualifications, from Certificate II though to the Diploma qualifications, contain specialisations.

Refer to the above qualifications for details of packaging rules for specialisations.

Importing elective units

The packaging rules for all qualifications enable units of competency to be imported from any Training Package that is directly relevant to the learner's current or intended work environment. In providing this flexibility it is incumbent on RTOs to ensure that the integrity of qualifications in the Training Package is maintained. It is a requirement that RTOs can provide evidence of engaging with industry to select imported electives.

The following guidelines for importing units apply:

- The units are from an endorsed Training Package or other accredited course and are relevant to the vocational outcome of the qualification.
- The units are appropriate to the needs of the organisation.
- Any prerequisite units specified in the original unit and any specific assessment requirements in the host Training Package are observed.

Contextualising units of competency

It is vital that MST units of competency are able to be used in a wide range of industry sectors and enterprises. To enable this, contextualising the units of competency is actively encouraged.

Access and equity considerations

A learner's access to the training and assessment process should not be adversely affected by restrictions placed on the location or context of assessment beyond the requirements specified in this training package.

Reasonable adjustments

Under the *Disability Standards for Education 2005*, RTOs must make reasonable adjustments for people with disability to the maximum extent that those adjustments do not cause that provider unjustifiable hardship. While 'reasonable adjustment' and 'unjustifiable hardship' are different concepts and involve different considerations, they both seek to strike a balance between the interests of education providers and the interests of learners with and without disability. The Disability Standards for Education 2005 and guidelines for their implementation can be downloaded at <http://www.comlaw.gov.au/Details/F2005L00767>.

An adjustment is any measure or action that a learner requires because of their disability, and which has the effect of assisting them to access and participate in education and training on the same basis as those without a disability. An adjustment is reasonable if it achieves this purpose while taking into account factors such as the nature of the learner's disability, their views, the potential effect of the adjustment on the learner and others who might be affected, and the costs and benefits of making the adjustment.

When assessing whether an adjustment is reasonable a training provider is also entitled to maintain the academic requirements of a course or program and to consider the requirements or components that are inherent or essential to its nature. There may be more than one adjustment that is reasonable in a given set of circumstances; education providers are required to make adjustments that are reasonable and that do not cause them unjustifiable hardship.

Foundation skills

Foundation skills are those core or essential skills we need to engage successfully in work and life. The term 'foundation skills' is used to include the core skills defined in the Australian Core Skills Framework (ACSF) as well as the employability skills identified as critical for effective performance in the workplace.

The core skills of the ACSF include reading, writing, oral communication, numeracy and learning.

The other foundation skills are:

- initiative and enterprise
- planning and organising
- problem solving
- self-management
- teamwork
- technology

Foundation skills are deemed essential to successful learning and continuing employment. In the MST Textiles, Clothing and Footwear Training Package those foundation skills essential to performance but not explicit in the performance criteria are listed in the Foundation Skills section of a unit. It is essential that foundation skills are considered in training and assessment activities. This is true for foundation skills which are explicit in performance criteria of a unit or listed in the Foundation Skills section.

Work health and safety

All operations must comply with work health and safety and environmental management requirements, which may be imposed through state/territory or federal legislation. These requirements must not be compromised at any time.

Individual units of competency give details on the relevant work health and safety requirements.

Resource and equipment requirements

Details of the assessment requirements of each unit are detailed in the assessment requirements associated with each unit of competency. Conditions for assessment must include access to all tools,

equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with the unit.

Legal considerations for learners in the workplace/on placements

The TCF industry is governed by legislation, regulations and/or external accreditation requirements. Local requirements should be checked.

RTOs must comply with all Commonwealth, state and territory legislation and regulatory requirements.

Delivering the training

Skilled trainers and assessors

Assessors must satisfy the assessor competency requirements that are in place at the time of the assessment as set by the vocational education and training (VET) regulator.

In addition, the assessor or anyone acting in a subject matter expert role in assessment must demonstrate both technical competency and currency. If the assessor cannot demonstrate technical competency and currency they must assess with a subject matter expert who does meet these requirements.

Technical competency can be demonstrated through one or more of:

- relevant VET or other qualification/Statement of Attainment
- appropriate workplace experience undertaking the type of work being assessed under routine and non-routine conditions
- appropriate workplace experience supervising/evaluating the type of work being assessed under routine and non-routine conditions.

Currency can be demonstrated through one or more of:

- being currently employed undertaking the type of work being assessed
- being employed by the organisation undertaking the type of work being assessed and having maintained currency in accordance with that organisation's policies and procedures
- having consulted/had contact with an organisation undertaking the type of work being assessed within the last twelve months, the consultation/ contact being related to assessment
- conducting on-the-job training/assessments of the type of work being assessed
- being an active member of a relevant professional body and participating in activities relevant to the assessment of this type of work.

Mode of delivery

Training and assessment may be delivered face to face, online, through workplace training or a mixture of different modes/blended delivery.

Learners can be assessed by recognition of prior learning (RPL), on the job, off the job or a combination, as long as the principles of assessment and rules of evidence are met.

Assessing learners

General

Assessment methods must ensure that only properly skilled learners are assessed as competent.

Assessment must meet the principles of assessment and the rules of evidence.

Assessment methods must confirm consistency of performance over time, rather than a single assessment event.

Units of competency are to be assessed in the workplace or a simulated workplace environment. A simulated workplace environment must reflect realistic operational workplace conditions that cover all aspects of workplace performance, including the environment, task skills, task management skills, contingency management skills and job role environment skills.

Foundation skills are integral to competent performance of the unit and should not be assessed separately.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the learner.

Evidence of knowledge may be collected concurrently with performance evidence or through an independent process, such as workbooks, written assessments or records of interviews.

Access must be provided to instruments, equipment, materials, workplace documentation, procedures and specifications associated with the unit of competency. Detailed information is provided in the assessment requirements of each unit of competency.

Designing assessment for the TCF industries

The design of assessment needs to ensure that the dimensions of competency are covered:

- task skills (performance of individual tasks)
- task management skills (managing a number of different tasks within the job)
- contingency management skills (responding to problems, breakdowns and changes in routine)
- job/role environment skills (dealing with the responsibilities and expectations of the workplace).

Evidence-gathering methods must be gender and culturally-inclusive and take into account the language, literacy and numeracy skills of the learner.

Assessors may consider:

- incorporating a range of assessment techniques
- integrating the assessment of units related to the performance of 'whole of work' tasks, roles or functions
- using a holistic approach which combines knowledge, understanding, problem-solving, technical skills and applications to new situations into the assessment process
- assessing in the workplace (wherever possible), using familiar skills and materials
- eliminating any unnecessary reading or written assessment (if these skills are not required to do the job, they should not be part of the assessment)
- ensuring understanding of questions by rephrasing to clarify and using the language and terms of the job and the workplace
- encouraging the learner to ask questions to clarify instructions
- providing clarification of purpose and process of assessment
- considering cultural and gender issues when setting up the assessment.

Conducting assessments

Where assessment is occurring in the workplace:

- Take into account that the person being assessed may have had little experience of structured training and assessment. Carefully explain the process of making judgements against the standards and make the learner feel as relaxed as possible.
- Consult on the assessment process with the parties involved.

- The assessment should take place over a reasonable length of time so that the learner has the opportunity to demonstrate work responsibility and contingency management. (Third-party reports of workplace performance, if available, are helpful for this.)
- Consider the other staff in the workplace likely to be affected by the process. All staff directly or indirectly involved in the process should be briefed on the factors that will impact on them, such as duration or changes in work routine.
- Ensure that assessment is as compatible as possible with the normal pattern of work and causes minimal disruption. If the process involves learners being away from their work area for a period of time, then arrangements should be made with their immediate supervisor to cover their duties for that period of time.

Where assessment is occurring out of the workplace, it is important to ensure that:

- the assessment takes place in a situation as close as possible to workplace reality
- all aspects of competency are assessed
- the assessment takes place over a reasonable length of time so that the learner has the opportunity to demonstrate work responsibility and contingency management (Third-party reports of workplace performance, if available, are helpful for this)
- documents used in assessment closely reflect workplace reality.

Consistent performance should be demonstrated. In particular, the assessor could:

- review test data/results obtained by the learner over time, particularly to check accuracy, consistency and timeliness of results
- review test records and workplace documentation prepared by the learner
- observe the learner conducting sample preparation and a range of test procedures
- obtain feedback from clients, peers and supervisors
- question the learner about relevant technical terms, test methods and enterprise procedures, common problems and corrective action
- conduct simulations and role plays to assess the learner's ability to handle unforeseen problems, and respond to simulated emergencies and to simulated working conduction where access to the workplace is not possible.
