ACMSPE305 Provide basic care of domestic cats

Release: 1

ACMSPE305 Provide basic care of domestic cats

Modification History

Release	Comments
Release 1	This version released with ACM Animal Care and Management Training Package Version 1.0.

Application

This unit of competency describes the skills and knowledge required to identify domestic cats and their behavioural and physical needs, and provide daily care requirements.

This unit applies to individuals working in the animal care industry where domestic cats are bred, reared, trained, cared for or housed.

This may include animal shelters, pet shops, catteries, or grooming establishments or similar workplaces. This unit applies to individuals who work under broad supervision and provide and communicate solutions to a range of predictable problems.

Regulatory requirements apply to this unit but vary according to state/territory jurisdictions. Users must check with the relevant regulatory authority before delivery.

NOTE: The terms 'occupational health and safety' (OHS) and 'work health and safety' (WHS) generally have the same meaning in the workplace. In jurisdictions where the national model WHS legislation has not been implemented, RTOs must contextualise the unit of competency by referring to current OHS legislative requirements.

Pre-requisite Unit
