### Description

This skill set is designed to cover the skills and knowledge required to provide basic hoof care and remove and replace an equine shoe as an emergency measure to address an immediate equine welfare requirement relating to hoof and/or shoe conditions.

### Pathways Information

These units of competency provide credit toward *ACM30821 Certificate III in Horse Care* and *ACM30921 Certificate III in Equine Hoof Care*.

### Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

### Skill Set Requirements

An asterisk (\*) next to the unit code indicates that there are prerequisite requirements which must be met as part of the skills set requirements. Please refer to the Prerequisite requirements table for details.

- ACMEQU212 Handle horses safely
- ACMEQU309\* Carry out basic hoof care procedures
- ACMFAR317 Replace equine shoes as an emergency measure

#### Prerequisite requirements

| Unit of competency | Prerequisite requirement |
|--------------------|--------------------------|
|--------------------|--------------------------|

|                                                |                                |
|------------------------------------------------|--------------------------------|
| ACMEQU309 Carry out basic hoof care procedures | ACMEQU212 Handle horses safely |
|------------------------------------------------|--------------------------------|

## Target Group

This skill set is for livestock or agricultural workers, typically in regional or remote areas with limited access to a farrier. They use horses or other equines for work and are required to carry out basic hoof care as part of their job role.

## Suggested words for Statement of Attainment

These competencies from the *ACM Animal Care and Management Training Package* meet industry requirements for providing basic hoof care and the emergency replacement of equine shoes.
